

AR-15 CARBINE FLAT WIRE SPRING - STRIKE INDUSTRIES AR-15 CARBINE FLAT WIRE SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

The SI Carbine Flatwire Spring is an economical, easy upgrade to any AR system with a carbine buffer system. The flatwire spring increases service life of the platform, smooths out the shooting cycle, and greatly outlasts the stock spring. Increased bolt load, in addition to decreased compression force increases reliability in cycling. Additionally, all SI Flatwire springs are cryogenically stress relieved to provide greater consistency, longer spring life, and greater resilience to high cyclic rates. At a cost not much greater than stock carbine springs, the SI Flatwire is an easy option for those either looking to replace worn buffer springs or begin new builds. Package include: 1x Carbine Length Flatwire Spring Features Cryo-cycled 17-7 ph steel for strength, reliability and longevity Decreased harmonics lessens system vibration for faster follow up shots. Increased bolt load for more positive feeding Reduces distracting AR "twang"

Attributes

- Name: [STRIKE INDUSTRIES AR-15 CARBINE FLAT WIRE SPRING](#)
- Manufacturer: [STRIKE INDUSTRIES](#)
- Product no.: 100023239
- Mfr. No.: SI-AR-FWS-C
- Weapon type: AR-15
- Delivery weight: 0.091kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 356mm
- UPC: 708747545555

Safety Instruction Guide for AR15 Carbine Flat Wire Spring

Introduction

Thank you for choosing the AR15 Carbine Flat Wire Spring by Strike Industries. This product is designed to enhance the performance and reliability of your AR15 carbine buffer system. To ensure safe and effective use, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Always handle firearms with care and follow all safety protocols.
- Ensure that the firearm is unloaded before performing any maintenance or modifications.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- **Potential Hazards:** Improper installation or use of the flat wire spring can lead to firearm malfunction or injury.
- **Avoiding Hazards:**
 - Always verify that the firearm is unloaded before installation.
 - Use protective eyewear when handling or installing the spring.
 - Do not use the spring with incompatible buffer systems.
 - Ensure that all components are in good condition before use.
- **Age Warning:** This product is intended for use by individuals of legal age and with proper firearm training.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a buffer tube wrench and safety glasses.

2. Installation:

- Remove the existing buffer spring from the buffer tube.
- Inspect the buffer tube for any debris or damage.
- Insert the AR15 Carbine Flat Wire Spring into the buffer tube, ensuring it is seated properly.
- Reinstall the buffer and buffer retaining pin.

3. Usage:

- After installation, perform a function check of the firearm to ensure proper cycling.
- Test the firearm in a safe environment to confirm reliable operation.
- Regularly inspect the flat wire spring for signs of wear or damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal recycling.
- Do not dispose of the product in regular household waste.

- Ensure that all components are completely disassembled before disposal.

Contact Information for Further Support

For any questions or concerns regarding the AR15 Carbine Flat Wire Spring, please refer to the official website or customer support resources provided by Strike Industries.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with the AR15 Carbine Flat Wire Spring.
