Real Avid Gun Boss Pro Precision Cleaning Tools

Safety Instruction Guide

Introduction

Thank you for choosing the Real Avid Gun Boss Pro Precision Cleaning Tools. These tools are designed specifically for gun owners to effectively clean their firearms and remove carbon buildup. This guide provides essential safety instructions to ensure the safe use of these cleaning tools, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you read and understand all instructions before using the cleaning tools.
- Keep the cleaning tools out of reach of children and vulnerable individuals.
- Only use the tools for their intended purpose as described in this guide.
- Inspect the tools regularly for any signs of damage or wear. Do not use damaged tools.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when cleaning firearms.
- Avoid using the tools in wet or damp conditions to prevent slipping or electrical hazards.
- Store the tools in a secure location when not in use, preferably in the provided polycarbonate storage case.

Specific Safety Precautions for Use

- **Carbon Scraper and Brass Scraper:**
 - Use these scrapers with caution to avoid damaging the firearm's surface.
 - Do not apply excessive force when scraping; let the tool do the work.
- **Coated Steel Rods:**
 - Ensure that rods are inserted straight into the barrel to prevent bending or breaking.
 - Do not exceed the recommended length of the rods when cleaning.
- **Nylon and Oil Application Brushes:**
 - Use the brushes gently to avoid bristle loss or damage to the firearm.
 - Clean brushes after each use to prevent crosscontamination of cleaning solutions.
- **Picks and Punches:**
 - Handle picks and punches with care to avoid injury. Keep fingers clear of the sharp ends.
 - Ensure that picks and punches are used only for their intended purpose.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and in a safe condition before starting any cleaning procedure.
- Gather all necessary tools and cleaning supplies in a welllit area.

2. Using the Coated Steel Rods:

- Attach the appropriate brush or cleaning attachment to the end of the steel rod.
- Insert the rod gently into the firearm's barrel, ensuring it is aligned straight.
- Rotate the rod while pulling it out to effectively clean the barrel.

3. Using the Carbon Scraper:

- Identify areas with carbon buildup on the firearm.
- Gently scrape the carbon buildup using the scraper, applying minimal pressure.

4. Using the Nylon and Oil Application Brushes:

- Dip the brush in the appropriate cleaning solution.
- Use the brush to clean the interior surfaces of the firearm, moving in a backandforth motion.

5. Using Picks and Punches:

- Select the appropriate pick or punch for the task.
- Carefully insert the tool to dislodge any debris or buildup, avoiding excessive force.

6. Final Steps:

- After cleaning, ensure all tools are cleaned and stored properly.
- Inspect the firearm to ensure it is free of cleaning materials before reassembly.

Disposal Instructions

- Dispose of any cleaning materials used (such as rags or brushes) according to local regulations.
- Do not dispose of cleaning solutions down the drain unless specified by the product instructions.
- Ensure that all tools are stored properly to prevent accidents or injuries.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with your product packaging or visit the manufacturer's website.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective cleaning experience with your Real Avid Gun Boss Pro Precision Cleaning Tools.
