

S&W M&P M2.0 FLAT FACED FORWARD SET TRIGGER KIT - APEX TACTICAL SPECIALTIES INC S&W M&P M2.0 FLAT FACED FORWARD SET TRIGGER KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

Apex Tactical's S&W M&P M2.0 Flat-Faced Forward Set Trigger Kit is an easy-to-install replacement for your M2.0's factory trigger that gives you a lighter, smoother, and more consistent trigger pull. The solid trigger body provides a more comfortable interface with the finger for better control, while fully preserving reliable function of the factory trigger safety system. The M&P M2.0 Flat-Faced Forward Set Trigger has significantly reduced pre-travel and over-travel, with a crisp, decisive break in between. Shorter, more positive reset means faster follow-up shots. Reduces overall trigger travel by about 40% Smooths out the trigger pull & makes it more consistent Lightens pull weight by approx. 2 lbs. to 4-6 lbs. Actual pull weight depends on the sear and trigger return springs you install (and variations in individual guns) Apex includes two sear springs and two trigger return springs in the kit, so you can "tune" the trigger to your specific shooting needs. Choose the "duty/carry" springs to set a pull weight for duty or CCW carry pistols. The M&P M2.0 Flat-Faced Forward Set Trigger's contour also allows you to place your finger lower on the trigger face for extra leverage that helps you take maximum advantage of the lower pull weight. With a little attention to proper finger placement, the flat-faced forward set trigger is an excellent trigger for competition pistols. Brownells Gun Tech™ Note: This Apex Tactical Flat-Faced Forward Set Trigger Kit is for installation in Smith & Wesson M&P M2.0 pistols ONLY, in all centerfire calibers and configurations, including M&P 2.0 Compact. Not for use in original M&P models; use #100-016-327 or #100-017-344 in original M&P pistols. Kit includes the following components: Flat-Faced Forward Set Trigger Forward Set Sear Actuator 2-Dot Fully Machined Sear Heavy-Duty Sear Spring Duty/Carry Sear Spring Heavy-Duty Trigger Return Spring Duty/Carry Trigger Return Spring Ultimate Striker Block Kit (Striker Block, spring & Talon Tactical Tool) Slave pin (assists with installation of trigger return spring)

Safety Instruction Guide for S&W M&P M2.0 FlatFaced Forward Set Trigger Kit

Introduction

Thank you for choosing the S&W M&P M2.0 FlatFaced Forward Set Trigger Kit by Apex Tactical Specialties Inc. This guide provides essential safety instructions and information to ensure the safe use and installation of your trigger kit. Please read this guide carefully before use and keep it for future reference.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential risks associated with the installation and use of the trigger kit.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for product recalls and safety updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the S&W M&P M2.0 FlatFaced Forward Set Trigger Kit in Smith & Wesson M&P M2.0 pistols.
- Do not attempt to install or use this trigger kit in original M&P models or other firearm types.
- Ensure the firearm is unloaded and pointed in a safe direction before beginning installation.
- Wear appropriate safety gear, including eye protection, during installation.
- Ensure that all components are intact and free from defects before use.
- If you experience any issues or malfunctions, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components included in the kit.
- Ensure your work area is clean and free from distractions.

2. Disassembly of the Firearm:

- Follow the manufacturer's instructions to safely disassemble your S&W M&P M2.0 pistol.
- Remove the factory trigger and associated components carefully.

3. Installation of the Trigger Kit:

- Install the FlatFaced Forward Set Trigger into the trigger housing.
- Attach the Forward Set Sear Actuator and 2Dot Fully Machined Sear as per the instructions.
- Install the HeavyDuty Sear Spring and Duty/Carry Sear Spring.
- Place the HeavyDuty Trigger Return Spring and Duty/Carry Trigger Return Spring in their respective positions.
- Ensure that the Ultimate Striker Block Kit is properly installed, including the Striker Block, spring, and Talon Tactical Tool.
- Use the slave pin to assist with the installation of the trigger return spring.

4. Reassembly of the Firearm:

- Carefully reassemble your firearm, ensuring all components are secure and correctly positioned.

- Conduct a function check to verify that the trigger operates smoothly and safely.

5. Usage:

- When using your firearm, maintain proper finger placement on the trigger face for optimal control.
- Always be aware of your surroundings and handle your firearm responsibly.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not discard the trigger kit or its components in regular household waste. Instead, contact local waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the installation or use of the S&W M&P M2.0 FlatFaced Forward Set Trigger Kit, please consult a qualified gunsmith or contact Apex Tactical Specialties Inc directly for support.

By following these safety instructions, you help ensure a safe and enjoyable experience with your S&W M&P M2.0 FlatFaced Forward Set Trigger Kit. Always prioritize safety and responsible firearm handling.
