Improve Your Duty or Carry Gun

Having a clean, crisp trigger pull is imperative on a self-defense pistol, as it ensures that users have the ability to put threat-stopping rounds on target when needed. The Apex Tactical S&W M&P M2.0 Shield Action Enhancement Components are six separate pieces that work in conjunction to enhance your go-to personal-defense gun. The Apex Tactical S&W M&P M2.0 Shield Action Enhancement Components include a Fully Machined Sear, Trigger Return Spring, Ultimate Striker Block, Striker Block Spring, Sear Spring and a polymer Slave Pin, which all work together to lessen trigger-pull weight and over-travel. The trigger-return spring produces a trigger pull in the 5-5.5-pound area while producing a smoother, cleaner pull. Works on all Smith & Wesson M&P M2.0 Shield pistols in 9mm and .40 S&W Slave Pin included to ease installation Ultimate Striker Block should be installed by certified gunsmith The Apex Tactical S&W M&P M2.0 Shield Action Enhancement Components can be used along with the company's Action Enhancement Trigger to create a complete improvement package.

Safety Instruction Guide for S&W M&P M2.0 Shield Action Enhancement Components

Introduction

Thank you for choosing the S&W M&P M2.0 Shield Action Enhancement Components by Apex Tactical Specialties Inc. This guide provides essential safety instructions to ensure the safe use and installation of your product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm before installing or using any enhancement components.
- Always treat your firearm as if it is loaded, even if you believe it is not.
- Store your firearm and components in a secure place, out of reach of children and unauthorized users.
- Use only the recommended components for your specific firearm model to avoid potential hazards.
- Regularly inspect your firearm and enhancement components for any signs of wear or damage.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- The installation of the Ultimate Striker Block should be performed by a certified gunsmith to ensure safety and compliance.
- Always wear appropriate safety gear, such as eye protection, when handling firearms and components.
- Avoid using excessive force during installation to prevent damage to the components or firearm.
- Do not attempt to modify or alter the components beyond the manufacturer's specifications.
- Ensure that the firearm is pointed in a safe direction at all times during installation and testing.

Instructions for Installation and Usage

- Before installation, ensure that your firearm is unloaded and that the magazine is removed.
- Gather the necessary tools for installation, including a suitable punch tool for the Slave Pin.
- Follow these steps for installation:
 1. Remove the slide from the frame of the firearm.
 2. Carefully remove the existing components that will be replaced.
 3. Install the Fully Machined Sear, Trigger Return Spring, Ultimate Striker Block, Striker Block Spring, Sear Spring, and polymer Slave Pin in the correct order.
 4. Ensure that each component is seated properly and securely.
 5. Reassemble the firearm and perform a function check to ensure proper operation.
- If you encounter difficulties during installation, consult a certified gunsmith for assistance.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of components in regular household waste. Check for designated disposal facilities or programs in your area.

Contact Information for Further Support

For any questions or concerns regarding the S&W M&P M2.0 Shield Action Enhancement Components, please refer to the manufacturer's official website or contact your local dealer for assistance.

By following these safety instructions, you can ensure the safe and effective use of your S&W M&P

M2.0 Shield Action Enhancement Components. Always prioritize safety and responsible firearm handling.
