

AR-15 HIPERTOUCH® SERIES TRIGGER ASSEMBLIES - HIPERFIRE

AR-15/10 HIPERTOUCH ELITE TRIGGER ASSEMBLY

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

Breathtakingly Smooth, Light Pull With Plenty of Hammer Oomph

Hiperfire's revamped Hipertouch® trigger line gives the AR-15 shooter an impressive array of options in a single-stage trigger with shorter pre-travel, faster reset, and increased hammer energy than the standard G.I.-type trigger. Dual coil springs across the top of the Hiperfire® trigger reduce friction on the sear and increase hammer striking power by 35% over a "mil-spec" trigger, while a pair of interchangeable color-coded springs let you choose between a 2.5 lb. or 3.5 lb. pull weight. Of course, all the Hipertouch® models give your AR-15 a smooth, consistent pull with just a hint of creep, a snappy break, and a very short over-travel, followed by fast reset so you're ready to take the next shot. A Hipertouch® trigger in your AR-15 will help you improve your shot timing, control, and confidence for more accurate hits on the target. The Hipertouch's consistent pull doesn't signal hammer release like some triggers, so the shooter doesn't develop a flinch in anticipation of the rifle firing. The shooter can stay relaxed and doesn't build tension in the trigger finger. All of this adds up to better control over the gun, better shot timing, improved confidence and more accurate shooting. Consistent single-stage pull with a just a hint of "creep" 2 interchangeable hammer springs provide 2 pull weigh options - 2.5 lb. or 3.5 lb. NO fussy setscrews that can back out or otherwise lose your settings Unusually fast locktime Hard, positive hammer strikes without compromising pull weight Fits small-pin (.153") AR-15 lower receivers & AR 308 rifles that use AR-15 triggers 6 models to choose from - read on... Genesis is the Hipertouch® base model, an excellent upgrade for law enforcement, military, service rifle competition shooters, and personal defense. Auto offers same functionality as Genesis for select-fire full-auto M16 / M4-type rifles. Built like the proverbial tank to handle the punishment of fast-cycling operation. Elite is a match-quality trigger that breaks quickly, after even shorter pre-travel than the Genesis, with very quick, positive reset. Letoff is extremely easy to control. Competition is ideal for competitive shooters who want the bare minimum of pre-travel and a straight trigger shoe. The adjustable finger pad gives you even more refined control. It can be set at five different positions for further refinement of pre-travel and trigger weight. Position the shoe farther down the bow to increase leverage and effectively reduce pull weight. The result is effectively 10 pull weight options rather than two. Or leave the pad off and enjoy the enhanced tactile control of a straight trigger. Reflex is similar to Competition but with a traditional curved trigger shoe - same trigger pull with virtually no creep. Excellent for Designated Marksman rifles, LE use, and 3-gun competition. Eclipse is the ultimate Hipertouch® trigger, with all the upgrades of the Competition model, including straight shoe and adjustable finger pad plus Hiperfire's Nickel Bliss electroless Nickel Boron (NiB) finish on all contact surfaces for enhanced corrosion protection and, more importantly, an EVEN SMOOTHER feel than its Hipertouch® siblings. This pull is so smooth, clean, and consistent you'll think the laws of physics have been broken. They haven't.

Attributes

- Name: [HIPERFIRE AR-15/10 HIPERTOUCHELITE TRIGGER ASSEMBLY](#)
- Manufacturer: [HIPERFIRE](#)
- Product no.: 100029413
- Mfr. No.: HPTE
- Style: Single-Stage
- Weapon type: AR-15
- Delivery weight: 0.129kg
- Shipping height: 13mm
- Shipping width: 102mm
- Shipping length: 171mm
- UPC: 859177004324

Safety Instruction Guide for AR15 HIPERTOUCH® SERIES TRIGGER ASSEMBLIES

Introduction

Thank you for choosing the AR15 HIPERTOUCH® Series Trigger Assemblies by HIPERFIRE. This guide provides essential safety instructions to ensure the safe use and handling of your trigger assembly. Please read this document carefully to understand how to operate your product safely and effectively.

General Safety Guidelines

- Ensure that the trigger assembly is installed correctly according to the provided instructions.
- Always treat your firearm as if it is loaded, and never point it at anything you do not intend to shoot.
- Keep the firearm and trigger assembly out of reach of children and unauthorized users.
- Regularly inspect your trigger assembly for any signs of wear or damage.
- Store your trigger assembly and firearm in a secure location when not in use.
- Follow all local laws and regulations regarding firearm use and ownership.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using your firearm.
- Do not modify your trigger assembly beyond the manufacturer's specifications.
- Use only compatible firearms and components as specified by the manufacturer.
- Be cautious when handling ammunition and ensure it is stored safely and securely.
- If you experience any malfunctions or unusual behavior with your trigger assembly, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before installation.
- Follow the manufacturer's instructions for removing the existing trigger assembly.
- Carefully install the HIPERTOUCH® trigger assembly, ensuring all components are seated correctly.
- Reassemble the firearm and perform a function check to ensure proper operation.

2. Usage:

- Familiarize yourself with the trigger's characteristics, including its pull weight and reset.
- Practice dry firing in a safe environment to become accustomed to the trigger's operation.
- Regularly clean and maintain the trigger assembly to ensure optimal performance.

Disposal Instructions

- Dispose of the trigger assembly in accordance with local regulations.
- If the trigger assembly is damaged or no longer functional, do not attempt to repair it. Instead, dispose of it responsibly.
- Consider recycling components where applicable, following local guidelines for electronic waste and firearm parts.

Contact Information for Further Support

For any questions or concerns regarding the AR15 HIPERTOUC[®]H Series Trigger Assemblies, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your AR15 HIPERTOUC[®]H Series Trigger Assemblies. Thank you for your attention to safety.
