# HELLFIRE THREAD AND TAPER PROTECTOR SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Area 419 Hellfire Thread and Taper Protector. This product is designed to protect the threads and taper surface of your muzzle brake and adapter during the process of swapping them out. Proper usage and installation are essential for ensuring safety and maintaining the integrity of your equipment. This guide provides important safety instructions and information to help you use the product effectively.

## General Safety Guidelines

- Ensure that all products are used according to the manufacturer's instructions to avoid potential hazards.
- Always inspect the product for any signs of damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- If you notice any defects or issues, do not use the product and report it to the appropriate authorities.
- Stay informed about any recalls or safety updates related to this product via the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as eye protection, when handling the product.
- Avoid exposing the threads and taper surface to moisture or harsh environmental conditions when not in use.
- Do not apply excessive force when installing or removing the product to prevent damage to the threads or taper surface.
- Ensure that the product is securely fitted and does not come loose during use.
- Do not modify the product in any way, as this can compromise its effectiveness and safety.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the muzzle brake and adapter are clean and free from debris.
- Gather necessary tools for installation, if required.

### 2. Installation:

- Align the Area 419 Hellfire Thread and Taper Protector with the exposed threaded surface of your adapter.
- Gently slide the protector over the threads, ensuring it fits snugly without excessive force.
- Confirm that the protector is securely in place before proceeding with any further installation.

### 3. Usage:

- When using your muzzle brake and adapter, the protector should remain in place to shield the threads and taper surface.
- Periodically check the protector to ensure it remains secure and free from damage.

### 4. Removal:

- To remove the protector, gently twist and pull it off the threaded surface.
- Inspect both the protector and the threaded surface for any signs of wear or damage before reinstallation.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste if it contains hazardous materials.
- Consider recycling options for aluminum materials where available.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Area 419 Hellfire Thread and Taper Protector, please refer to the manufacturer's website or contact the appropriate customer support channels.

Thank you for prioritizing safety and following these guidelines. Enjoy using your product responsibly!
