

PUSH BUTTON BASE FOR HOLLOW STOCK FULL ROTATION - GROVTEC US PUSH BUTTON BASE FOR HOLLOW STOCK- FULL ROTATION

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Tactical Sling Mounts](#)

Puts a Pushbutton QD Connector on Your Thin Walled Stock

Want to install a QD sling swivel socket on your long gun, but the walls of your polymer shoulder stock are just too thin to support a thread base alone? Well GroveTec has you covered with their Quick Release Base! Simply drill a hole in the stock, insert the push button base, then using the included nut, tighten it in place for a rock solid fit. The Quick Release Base disperses the pressure on your stock to prevent cracking or breaking around the sling cup. Full-rotation swivel cup Black-oxide finish All steel Low profile, the GrovTec Quick Release Base lets you position a receptacle for a QD pushbutton sling swivel on your rifle for improved carry options.

Safety Instruction Guide for PUSH BUTTON BASE FOR HOLLOW STOCK FULL ROTATION

Introduction

Thank you for choosing the GrovTec Push Button Base for Hollow Stock Full Rotation. This product is designed to enhance the functionality of your long gun by allowing the installation of a QD sling swivel socket. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the product for any signs of damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Do not modify or alter the product in any way.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the product with compatible firearm models.
- Ensure that the installation area on the stock is free from obstructions.
- Use appropriate tools to avoid damaging the product or your firearm.
- Avoid overtightening the nut during installation to prevent cracking the stock.
- Regularly check the stability of the installed base and make adjustments as necessary.

Instructions for Installation and Usage

1. Preparation:

- Gather the necessary tools: drill, appropriate drill bit, and wrench.
- Ensure you have a clean workspace.

2. Drilling the Hole:

- Identify the desired location on your polymer shoulder stock for the push button base.
- Use the drill to create a hole in the stock, ensuring it is of the correct diameter for the push button base.

3. Installing the Push Button Base:

- Insert the push button base into the hole you have drilled.
- Place the included nut onto the threaded end of the push button base.

4. Securing the Base:

- Using a wrench, tighten the nut carefully. Ensure it is secure but do not overtighten to avoid damaging the stock.

5. Attaching the QD Sling Swivel:

- Once the base is securely installed, attach your QD sling swivel to the push button base.

6. Final Check:

- Inspect the installation for stability. Ensure there are no cracks or signs of damage around the installation area.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic waste and nonbiodegradable materials.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any inquiries or further assistance regarding the GrovTec Push Button Base for Hollow Stock Full Rotation, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for following these safety instructions to ensure a safe and enjoyable experience with your GrovTec product.
