APEX PRO CONNECTOR FOR GLOCK® Safety Instruction Guide

Introduction

Thank you for purchasing the Apex Performance Connector for Glock® pistols. This product is designed to enhance your shooting experience by reducing the trigger pull weight. It is essential to understand how to use this product safely and effectively. This guide provides important safety instructions and compliance information in accordance with EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you are familiar with the operation and safety features of your Glock® pistol before installation.
- Always handle firearms with care and follow all local laws and regulations regarding firearm ownership and use.
- Keep this product and all firearms out of reach of children and unauthorized users.
- Regularly inspect the connector and your firearm for any signs of wear or damage.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- This connector is designed for use in all Glock® models except for the Glock® 42 and Glock® 43. Do not attempt to install it in these models.
- Ensure that the firearm is unloaded before beginning the installation process.
- Always wear appropriate safety gear, including eye protection, when working with firearms.
- Be aware of potential hazards such as accidental discharge or improper installation leading to malfunction.
- Follow all instructions carefully to avoid any risks associated with improper use.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your Glock® pistol is completely unloaded and pointed in a safe direction.
- Gather necessary tools, including a punch tool and a small hammer.

2. Installation Steps:

- Remove the slide from the frame of the Glock® pistol.
- Locate the factory connector and remove it using the punch tool.
- Carefully install the Apex Performance Connector by following these steps:
 - Align the connector with the trigger mechanism.
 - Gently tap it into place with the hammer, ensuring it is secure.
- Reassemble the slide and frame of the pistol.

3. Usage:

- After installation, conduct a function check to ensure that the connector is working correctly.
- Test the trigger pull weight to confirm the reduction of approximately 1 pound compared to the original factory component.
- Always follow safe handling practices when using your firearm.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the connector is damaged or no longer in use, follow local guidelines for the disposal of firearm components.

Contact Information for Further Support

For further support or inquiries regarding safety and installation, please refer to the manufacturer's official website or contact your local dealer for assistance.

By following these guidelines, you can ensure the safe and effective use of the Apex Performance Connector for Glock® pistols. Thank you for prioritizing safety in your firearm practices.
