

2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 41 CALIBER (0.410") 195GR SEMI-WADCUTTER DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

Attributes

- Name: [LEE PRECISION 41 CALIBER \(0.410"\) 195GR SEMI-WADCUTTER DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032156
- Mfr. No.: 90330
- Bullet Style: Semi-Wadcutter (SWC)
- Bullet Weight (Grains): 195
- Caliber: 10mm,40 Caliber
- Cavities: 2
- Diameter (in): 0.410
- Delivery weight: 0.386kg
- Shipping height: 51mm
- Shipping width: 64mm
- Shipping length: 267mm
- UPC: 734307903305

Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

Introduction

Thank you for choosing the 2 Cavity Pistol Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure the safe and effective use of your bullet molds. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure the molds are used in a wellventilated area to avoid inhalation of fumes from casting materials.
- Always wear appropriate personal protective equipment (PPE), including safety goggles, gloves, and a face mask, while using the molds.
- Keep the molds out of reach of children and pets to prevent accidental injury.
- Inspect the molds for any damage before use. Do not use damaged molds.
- Store the molds in a dry place to prevent corrosion or damage.

Specific Safety Precautions for Use

• Handling Hot Materials:

- Always assume that the molds will become hot during use. Use heatresistant gloves to handle them.
- Never touch the mold surfaces or the casting material until they have cooled down completely.

• Casting Process:

- Follow the manufacturer's instructions for casting lead or other materials.
- Do not exceed the recommended temperature for the casting material.
- Avoid pouring the molten material too quickly to prevent splashing.

• Cleaning and Maintenance:

- Allow the molds to cool before cleaning.
- Use a soft brush or cloth to clean the molds. Avoid abrasive materials that could damage the surface.
- Store the molds in a safe location when not in use.

Instructions for Installation and Usage

1. Setting Up the Molds:

- Ensure the work area is clean and organized.
- Place the molds on a stable, heatresistant surface.
- Ensure that the sprue plate is securely attached to the mold.

2. Preparing for Casting:

- Preheat the molds if recommended by the manufacturer.
- Prepare the casting material according to the instructions provided with the material.

3. Casting Bullets:

- Carefully pour the molten material into the mold cavities.
- Allow the material to cool and solidify before removing the bullets from the molds.
- Follow the recommended cooling times to ensure the bullets maintain their shape and integrity.

4. PostCasting:

- Once cooled, remove the bullets from the molds carefully to avoid damaging them.
- Inspect the bullets for any defects before use.

Disposal Instructions

- Dispose of any unused or waste casting materials according to local regulations.
- Do not dispose of molten materials in the regular trash or down the sink.
- Follow local guidelines for the disposal of lead and other hazardous materials.

Contact Information for Further Support

For any safety inquiries or concerns regarding the use of this product, please refer to the manufacturer's website or customer service for assistance.

Thank you for prioritizing safety while using the 2 Cavity Pistol Bullet Molds. Your adherence to these guidelines will help ensure a safe and enjoyable experience.
