Safety Instruction Guide for IGAGING EZ CAL XLARGE DIGITAL DISPLAY CALIPERS

Introduction

Thank you for choosing the IGAGING EZ Cal XLarge Digital Display Calipers. These precision measuring tools are designed for firearm enthusiasts and professionals who require accurate measurements. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle the calipers with care to avoid damage and ensure accurate measurements.
- Keep the calipers away from children and pets to prevent accidental injury.
- Do not use the calipers for any purpose other than measuring dimensions.
- Regularly inspect the calipers for signs of wear or damage. If any issues are found, discontinue use and contact customer support.
- Ensure that the calipers are kept clean and dry to maintain their precision and functionality.
- Be aware of your surroundings when using the calipers to avoid accidents and injuries.

Specific Safety Precautions for Use

- Use the calipers only in environments that are free from moisture and dust to maintain accuracy.
- Do not apply excessive force while measuring, as this may damage the measuring surfaces and affect precision.
- Avoid exposing the calipers to extreme temperatures or direct sunlight for prolonged periods.
- When switching between measurement units, ensure that the display is properly set to avoid confusion.
- Always store the calipers in a protective case when not in use to prevent damage.

Instructions for Installation and Usage

1. Powering On:

- To turn on the calipers, press the power button. The display will light up, indicating that the calipers are ready for use.

2. Measuring:

- Open the calipers by sliding the measuring arms apart.
- Place the object to be measured between the measuring jaws.
- Gently close the calipers until they make contact with the object without applying excessive pressure.
- Read the measurement displayed on the extralarge LCD screen. You can switch between inches (decimal or fractional) and millimeters by pressing the unit button.

3. Turning Off:

- After use, press the power button to turn off the calipers. This will help conserve battery life.

4. Battery Replacement:

- If the display becomes dim or unresponsive, replace the battery (CR2032) as follows:
 - Locate the battery compartment on the back of the calipers.
 - Open the compartment and remove the old battery.

- Insert a new CR2032 battery, ensuring the correct polarity.
- Close the compartment securely.

Disposal Instructions

- Dispose of the calipers and any batteries according to local regulations regarding electronic waste.
- Do not dispose of the calipers in regular household waste.
- Take the product to an appropriate recycling facility to minimize environmental impact.

Contact Information for Further Support

For further assistance or inquiries regarding safety concerns, please refer to the manufacturer's contact details provided with the product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the IGAGING EZ Cal XLarge Digital Display Calipers. Always prioritize safety and accuracy in your measurements. Thank you for choosing our product!
