## State-of-the-Art Stock Technology

The KRG Whiskey-3 Chassis (W3C) is one of the premier chassis available for your bolt action precision rifle. The W3C combines precise aluminum bedding with tool-less adjustments, durability, and excellent ergonomics. Right out of the box it allows the use of AICS style magazines (not included) in your rifle without any special bottom metal. Numerous types of accessories can be added to the many attachment points, including handstops, sling mounts, rails, bipods, monopods, and more. KRG's modular grip panels allow the shooter to tailor the fit of the stock to his/her hand which, combined with the other adjustments, yield a stock set up exactly as it needs to be for that particular shooter. The latest Generation (6) features a new length-of-pull locking mechanism that is a bit more streamlined than previous generations and allows for faster adjustments. The Tikka inlet accepts T3, T3x, and CTR versions (basically all short action caliber T3 variants). Tikka rifles accept AICS pattern mags with the exception of the Magpul AICS polymer mags.

## Introduction

Thank you for choosing the WHISKEY 3 TIKKA T3X CHASSIS. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the chassis is compatible with your Tikka rifle model (T3, T3x, CTR).
- Always follow the manufacturer's instructions for installation and usage.
- Inspect the chassis regularly for any signs of wear or damage.
- Keep the chassis and all accessories out of reach of children.
- Use only AICS style magazines that are compatible with your chassis.
- Report any unsafe product experiences to the relevant authorities.

## Specific Safety Precautions for Use

- Always handle the rifle and chassis with care to prevent accidental discharge.
- Ensure that the rifle is unloaded when installing or adjusting the chassis.
- Do not exceed the recommended weight limit for accessories attached to the chassis.
- Use protective gear (e.g., eye protection) when using the rifle.
- Be aware of your surroundings and ensure a safe shooting environment.

## Instructions for Installation and Usage

### 1. Installation of the Chassis:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Remove the existing stock from the Tikka rifle by unscrewing the stock screws.
- Align the Tikka action with the chassis inlet and gently lower it into place.
- Secure the action by tightening the screws provided with the chassis.

### 2. Adjusting Length of Pull:

- Locate the lengthofpull adjustment mechanism on the chassis.
- Adjust the mechanism to your preferred length using the tool provided.
- Ensure the adjustment is securely locked before use.

### 3. Attaching Accessories:

- Identify the attachment points on the chassis for accessories.
- Follow the manufacturer's instructions for each accessory you intend to use.
- Ensure that all accessories are securely attached before use.

### 4. Using the Chassis:

- When ready to shoot, ensure the rifle is loaded properly with compatible AICS style magazine.
- Maintain proper shooting stance and grip on the chassis.
- Always be aware of the target and what is beyond it.

## **Disposal Instructions**

- Dispose of the chassis and any accessories in accordance with local regulations.
- Do not dispose of the chassis in regular household waste.
- Consider recycling options if available.
