

ENHANCED SLIDE STOP FOR GLOCK® 48 - TANGODOWN

ENHANCED SLIDE STOP FOR GLOCK 48 AND 43X

[Handgun Parts](#) > [Frame Parts](#) > [Slide Catch Parts](#) > [Slide Catches](#)

Small pistols can present big problems under stress reloads. On top of limited magazine capacity, undersized controls can hamper-or even prevent-a proper reload. The stakes are clear in that event. Don't run the risk....install a Vickers Tactical Slide Stop. It features the same positive V-shape with deep serrations that enables fast manipulation, in both directions, found on the original VT Slide Stop. A huge improvement to the Glock® 48 and 43X. Fits Glock® Model 48 and 43X. Has a stronger spring to handle the extra slide mass of the G48 slide. Reshaped thumb pad with deep serrations, allows easy slide lock and release, even with gloves. Precision stamped from 4130 chrome moly steel, with non-glare black finish.

Enhanced Slide Stop for Glock® 48 Safety Instructions

Introduction

Thank you for choosing the Enhanced Slide Stop for Glock® 48 and 43X by TANGODOWN. This product is designed to improve the functionality of your firearm during stressful situations, particularly when reloading. Please read this safety instruction guide carefully to ensure safe and effective use.

General Safety Guidelines

- Always treat all firearms as if they are loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Store firearms and ammunition securely, out of reach of children.
- Ensure that you are familiar with the operation of your firearm and its accessories.
- Use protective gear, including gloves, when handling firearms.
- Regularly inspect your firearm and accessories for wear and damage.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the Enhanced Slide Stop is compatible with your Glock® Model 48 or 43X before installation.
- Do not attempt to install or use the Slide Stop if you are unsure of the procedure.
- Use only the recommended tools for installation to avoid damaging the Slide Stop or your firearm.
- Always perform maintenance in a safe environment, free from distractions and potential hazards.
- If you experience any issues with the Slide Stop, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation Procedure

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory slide stop from your Glock® 48 or 43X using appropriate tools.
- Align the Enhanced Slide Stop with the designated area on the frame.
- Securely install the Slide Stop, ensuring it is properly seated.
- Test the Slide Stop by manipulating it to ensure it functions correctly.

2. Usage Guidelines

- Familiarize yourself with the new thumb pad and deep serrations for easy manipulation.
- Practice slide lock and release techniques, especially if using gloves.
- Regularly check the functionality of the Slide Stop during routine firearm maintenance.

Disposal Instructions

- Dispose of the Enhanced Slide Stop in accordance with local regulations for metal waste.
- Ensure that any old or unused firearm parts are disposed of safely and securely.

Contact Information for Further Support

For any safety inquiries or support related to the Enhanced Slide Stop for Glock® 48 and 43X, please contact

the manufacturer directly. Ensure you have the product details available for reference.

Thank you for your attention to these safety instructions. Your safety and the safety of others is paramount. Enjoy your enhanced firearm experience with the Vickers Tactical Slide Stop.
