## The Next Level of Authenticity for Your 10/22-Based M1 Carbine Replica

This sight set from West One Products provides the next step in converting a Ruger® 10/22® into a .22 LR M1 Carbine replica. Let's explain... We've offered West One's M1 Carbine style 10/22® stock for a long time, and it does an excellent job of giving Ruger's little rimfire the general look of the World War II era GI weapon. These fully functional sights "take it to the next level" by giving your repli-rifle an even more authentic look. West One's sights provide the exact same sight picture of the original M1 Carbine sights. The rear sight is so close to an original Type 1 M1 Carbine sight that it's interchangeable! Some minor modifications have been made to accommodate the distinctly different trajectory of the .22 Long Rifle cartridge. These sights are made of high-grade STEEL (no plastic here) with a dark Parkerized finish that closely resembles the originals. They offer full windage and elevation adjustment. And they are an easy one-for-one swap with your 10/22's original sights. They fit Ruger® 10/22® rifles with the standard carbine contour barrel and a barrel band for attachment of the front sight. M1 Carbine replica front / rear sights for Ruger 10/22 Drop-on replacements for factory 10/22 carbine sights Rugged all-STEEL construction, Parkerized finish Windage & elevation adjustable, just like originals As original, WWII-era M1 Carbines become collectibles too valuable to shoot, and even later commercial copies have become quite expensive, it makes sense to convert a spare Ruger® 10/22® into a fun-to-shoot replica. These sights are the perfect complement for one of these rifles already sporting West One's superb M1-style stock!

## Attributes

# Safety Instruction Guide for RUGER® 10/22 M1 Carbine Style Sighting System

## Introduction

Thank you for choosing the RUGER® 10/22 M1 Carbine Style Sighting System from West One Products. This product is designed to enhance your Ruger® 10/22® rifle by providing a more authentic look and functionality akin to the original M1 Carbine. It is essential to follow all safety guidelines to ensure a safe and enjoyable shooting experience.

## General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and ammunition separately in secure locations.
- Ensure that you are using the correct ammunition for your firearm.
- Always wear appropriate eye and ear protection when shooting.
- Be aware of your surroundings and ensure a clear shooting area.
- Do not consume alcohol or drugs before or during shooting activities.
- Follow all local laws and regulations regarding firearm use and ownership.

## Specific Safety Precautions for Use

- Ensure that the sighting system is compatible with your Ruger® 10/22® rifle before installation.
- Check for any damage to the sighting system prior to use. Do not use if damaged.
- Make sure the sighting system is properly installed and securely fastened before shooting.
- Regularly inspect the sighting system for wear and tear, especially after extensive use.
- Be aware that modifications to the rifle may affect its performance and safety.
- Use only highgrade STEEL sights as specified; do not substitute with plastic or inferior materials.

## Instructions for Installation and Usage

### 1. Installation:

- Unload your Ruger® 10/22® rifle and ensure it is in a safe condition.
- Remove the original front and rear sights from your rifle according to the manufacturer's instructions.
- Align the new M1 Carbine style front sight with the barrel band and secure it in place.
- Attach the rear sight in the designated area on the rifle, ensuring it is level and securely fastened.
- Make any necessary adjustments to the sights for windage and elevation to suit your shooting preferences.

### 2. Usage:

- Before each use, ensure the sighting system is clean and free of obstructions.
- Adjust the rear sight for windage and elevation as needed for optimal accuracy.
- Practice safe handling and shooting techniques at all times.
- After each shooting session, clean the sighting system and inspect for any signs of wear.

## Disposal Instructions

- Dispose of the sighting system in accordance with local regulations for metal and electronic waste.
- If the sighting system is damaged beyond repair, ensure it is disposed of in a manner that prevents

environmental harm.

- Do not throw the sighting system in regular household waste.

## Contact Information for Further Support

For any inquiries or concerns regarding the RUGER® 10/22 M1 Carbine Style Sighting System, please refer to the manufacturer's website or customer support resources for assistance.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your RUGER® 10/22 M1 Carbine Style Sighting System. Always prioritize safety and responsible firearm use.
