

ENHANCED PIN KIT WITH ANTI-WALK LOCKING BLOCK PIN FOR GLOCK® - STRIKE INDUSTRIES ENHANCED PIN KIT W/ANTI-WALK LOCKING BLOCK PIN GLOCK® 43

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Trigger Pins](#)

Designed for the serious user in mind, the high strength steel pins are upgraded for better serviceability and function. Rather than just offering a direct replacement for the OEM pins, the Strike Industries' Glock Pin kits feature an anti-walk locking block pin. We noticed that with particularly heavy use, and heavy recoil firearms, the locking blockpin had a tendency to walk out, leading to failure. While the trigger pin is captured, the locking block pin is only retained through friction with OEM parts. With frequent servicing, the pin holes can be damaged through wear over time. The SI Anti-walk locking block pin engages the slide stop lever spring in a similar way to the trigger pin to help prevent walk out. To preserve the frame, the pins are concave at the ends to support a pin punch and prevent slippage and mitigate potential damage to this critical area. For those that don't require detail stripping of their firearms regularly, they can be color filled to add another degree of customization to stand out from the crowd. At a price comparable with stock replacements, upgrade your firearm's reliability, serviceability and customization with the SI Enhanced Pin Kit with Anti-walk Locking Block Pin for Glock.

Attributes

- Name: [STRIKE INDUSTRIES ENHANCED PIN KIT W/ANTI-WALK LOCKING BLOCK PIN GLOCK® 43](#)
- Manufacturer: [STRIKE INDUSTRIES](#)
- Product no.: 100037255
- Mfr. No.: SI-G-AWP-43

Enhanced Pin Kit with AntiWalk Locking Block Pin for Glock® Safety Instruction Guide

Introduction

Thank you for choosing the Enhanced Pin Kit with AntiWalk Locking Block Pin for Glock®. This guide provides essential safety instructions to ensure the safe use and installation of your product. Please read this document carefully before use to maximize safety and performance.

General Safety Guidelines

- Ensure that the Enhanced Pin Kit is used only in compatible Glock® models, specifically the Glock 43.
- Always follow all local laws and regulations regarding firearm modifications and usage.
- Keep the product out of reach of children and unauthorized users.
- Inspect the Enhanced Pin Kit regularly for any signs of wear or damage.
- If you experience any difficulties or uncertainties during installation or use, seek assistance from a qualified gunsmith.

Specific Safety Precautions for Use

• Potential Hazards:

- Improper installation may lead to firearm malfunction.
- The locking block pin may walk out if not installed correctly, which can cause a failure during operation.
- Ensure that all components are securely fastened before use.

• Avoiding Hazards:

- Always doublecheck the installation of the locking block pin and ensure it is engaged properly.
- Do not attempt to disassemble or modify the Enhanced Pin Kit beyond its intended use.
- Use appropriate tools to avoid damaging the pins during installation.

• AgeSpecific Warnings:

- This product is intended for use by individuals who are legally permitted to handle firearms. Ensure that all users are of legal age and have the necessary training.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a pin punch and a hammer.

2. Installation Steps:

- Remove the existing pins from your Glock 43 using the pin punch.
- Clean the pin holes to remove any debris or residue.
- Align the Enhanced Pin Kit components with the respective holes.
- Gently tap the new pins into place using the pin punch and hammer, ensuring they are flush with the frame.
- Verify that the antiwalk locking block pin is securely in place and engages with the slide stop lever.

spring.

3. PostInstallation Check:

- Conduct a function check of your firearm to ensure that all components are operating correctly.
- If any issues arise, consult a qualified gunsmith for further assistance.

Disposal Instructions

- Dispose of any old pins and packaging materials in accordance with local regulations.
- Do not dispose of the Enhanced Pin Kit in regular household waste if it is damaged or nonfunctional. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or further assistance regarding the Enhanced Pin Kit with AntiWalk Locking Block Pin for Glock®, please refer to the manufacturer's contact information provided with your product packaging.

By following these guidelines and instructions, you can ensure the safe and effective use of your Enhanced Pin Kit with AntiWalk Locking Block Pin for Glock®. Thank you for prioritizing safety and performance in your firearm modifications.
