## An Enhanced Trigger Kit for Your Glock Slimline Pistol

Glock's collection of Slimline handguns are some of the most popular concealed-carry guns on the market today, and Apex Tactical has the perfect trigger-upgrade option available for these easily carried guns in the form of the company's Action Enhancement Kit designed for slim-frame Glock. Each Apex Tactical Action Enhancement Kit includes the company's enhanced trigger, trigger bar and Apex Performance Connector. All of the components are direct, drop-in replacements of the factory trigger components, and the improved parts provide a smoother trigger pull with reduced trigger travel, a shortened reset and a crisp, clean break. Overall, owners of Glock Slimline pistols can expect to see an improved trigger-pull weight of 5.5 pounds with the Apex Action Enhancement Kit, and the center-mounted pivoting safety on the Apex trigger ensures that all the safety elements included in the OEM Glock pistol are preserved. This kit is designed for use on the Glock G43, G43X and G48. It cannot be used on the Glock G42.

# Action Enhancement Trigger Kit for Slim Frame Glocks Safety Instruction Guide

## Introduction

Thank you for choosing the Action Enhancement Trigger Kit for Slim Frame Glocks by Apex Tactical Specialties Inc. This guide provides essential safety information, installation instructions, and usage guidelines to ensure your safety and the optimal performance of your product. Please read this document carefully before using the kit.

## General Safety Guidelines

- Ensure that the firearm is unloaded before beginning any installation or maintenance procedures.
- Always wear appropriate safety gear, including eye protection, when working with firearms and firearm components.
- Keep the product out of reach of children and unauthorized users.
- Do not modify the product in any way that is not specified in this guide.
- Regularly check for wear and tear on the components and replace them as needed.
- Store the kit in a secure location to prevent unauthorized access.

## Specific Safety Precautions for Use

- This kit is designed for use exclusively with Glock models G43, G43X, and G48. It is not compatible with Glock G42.
- Ensure that all components are properly installed before using the firearm.
- Be aware that modifications to the trigger system may change the trigger pull weight and characteristics.
- Familiarize yourself with the new trigger system before using the firearm in a live environment.
- Always conduct a function check after installation to ensure safe and proper operation.

## Instructions for Installation and Usage

### 1. Preparation

- Gather necessary tools: a punch tool, hammer, and a small flathead screwdriver.
- Ensure your Glock is unloaded and the magazine is removed.

### 2. Disassembly of the Firearm

- Follow the manufacturer's instructions for disassembling your Glock.
- Remove the slide, recoil spring, and barrel.

### 3. Removing the Factory Trigger Components

- Use the punch tool to carefully remove the trigger pin.
- Remove the factory trigger, trigger bar, and connector from the frame.

### 4. Installing the Apex Trigger Components

- Insert the Apex enhanced trigger into the frame.
- Attach the Apex trigger bar to the trigger and ensure it is seated correctly.
- Install the Apex Performance Connector in place of the factory connector.

### 5. Reassembly of the Firearm

- Reassemble your Glock by following the manufacturer's instructions.
- Ensure all parts are securely in place.

#### **6. Function Check**

- Conduct a function check to confirm that the trigger operates correctly.
- Check for a smooth trigger pull, proper reset, and a clean break.

#### **7. Final Safety Check**

- Before using the firearm, ensure it is unloaded and conduct a final safety inspection.

## **Disposal Instructions**

- Dispose of any old or unused components in accordance with local regulations.
- Do not dispose of firearm components in regular household waste.
- Check with local authorities for proper disposal methods for firearm parts.

## **Contact Information for Further Support**

For any questions or concerns regarding the Action Enhancement Trigger Kit, please refer to the manufacturer's contact details provided with the product packaging. Ensure that you have your product information ready when seeking assistance.

By following these guidelines and instructions, you can help ensure your safety and the safe operation of your firearm with the Action Enhancement Trigger Kit. Thank you for your attention to these important safety measures.
