## BLITZ PERFORMANCE TRIGGER DROP-IN BLACK

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

RISE Triggers' Blitz single-stage drop-in trigger boasts incredible speed, performance, and reliability for AR platforms ranging from PCCs to AR-15s and AR-10s. Ultra-fast Quik-Klik™ reset you can hear and feel for rapid follow-up shots. Nearly nonexistent creep to help you stay on target. Hybrid trigger blade that combines the best aspects of curved and flat triggers for exceptional comfort, control, and speed. Elementary installation — simple and fast with no set screws to tighten. NoWay™ Take-up — Most triggers allow a degree of movement prior to engaging the sear, but not with RISE Triggers. Measurements done on RISE Triggers show no trigger take-up before engaging the sear, so trigger movement begins with the pull required to move and actuate the sear to release the hammer. Single stage, 3.5-lb. pull. Includes free anti-walk trigger pins for worry-free installation. Fits AR-style platforms built to mil-spec dimensions — calibers include .223/5.56, .308, 6.5, 9MM, and more, making it an excellent option for PCCs. Melonite-coated interior parts for enhanced strength and corrosion resistance. Contained in an anodized housing machined from a solid block of 6061 aluminum, which is more durable and longer lasting than punch-tin housings to help the trigger perform flawlessly under a variety of conditions. Backed by the RISE More-Bang-for-Your-Buck Performance Guarantee and Lifetime Warranty.
