[Rifle Parts](#) > [Safety Parts](#) > [Safeties](#)

The best just got better! From the inventors of the very first fully modular, patented, ambidextrous safety selector for the AR-15 platform, Battle Arms Development is raising the bar on reliability and compatibility while lowering the price with the new generation BAD-ASS-PRO! This professional-grade, no non-sense, duty grade semi-auto safety selector is the perfect upgrade to your AR-15. It comes standard with a reversible throw safety center with 0°-90° and 0°-60° short-throw options. The standard and short safety levers are fully interchangeable and modular to accommodate left or right-handed shooters. The new BAD-ASS-PRO is now 100% compatible with all known(3), AR variant lower receivers, and triggers designed to work with the "Mil-Spec" AR-15 semi-auto safeties. No longer do you need a short-throw relief cut on your lower receiver to use the ambidextrous safety, simply use the provided short-throw markings sticker! No longer do you have to choose which trigger is compatible with the safety! If the trigger it will work with a "Mil-Spec" AR-15 semi-auto safety, it will work with the new BAD-ASS-PRO! No more broken screws! Don't settle for wiggling levers! No more stripped screw heads! The new patent-pending dovetail design and internal locking mechanism make it impossible to shear off the screw head because there is no screw head! Do not settle for spring-loaded detents that never give your safety lever that positive lock of confidence and worry about losing the small parts. The new BAD-ASS-PRO locking mechanism is robust, reliable and something you can depend your life on! The new internal locking set screw will not fall out and it is self-locking, no thread-locker is necessary! The new 5/64" set screw is also designed to resist stripping. Battle Arms Development has perfected the ambidextrous safety with the BAD-ASS-PRO! We are so sure that you will love the new BAD-ASS-PRO, we are offering a no questions asked 30-day satisfaction guarantee (1) in addition to our limited lifetime warranty! Try it! We guarantee you will never want another ambidextrous safety ever again! Features: Modular Assembly Ambidextrous Controls Reversible 0°- 60° or 0°- 90° Option Ergonomic Lever Design for Positive Purchase Limited Lifetime Warranty Against Manufacturing Defects Dovetail Attachment Engineered for Ultimate Strength and Reliability Patent Pending Internal Locking Mechanism Eliminates Broken Screws Swiss CNC Machined Center for Ultimate Precision and Butter Smooth Operation Compatible with All Known AR Variant Triggers(2) (i.e. Hiperfire, Geissele, CMC, Timney, etc.) Compatible with All Known AR Variant Lower Receivers with or w/o Short-Throw Relief Cut and Markings(3) Notes: When purchased directly from Battle Arms Development. There is no longer a "lawyer pin" like the previous BAD-ASS-ST or BAD-CASS-SA-ST short-throw safety selectors. The new BAD-ASS-PRO center will fit into all lower receivers with "Mil-Spec" safety selector hole dimensions. If the BAD-ASS-PRO safety selector is installed, on the short-throw option, in a lower receiver without the proper short-throw FIRE markings, the provided short-throw marking sticker must be used. BAD-ASS-PRO safety selector is compatible with all known, to us, AR variant lower receivers and AR variant trigger designed to work with "Mil-Spec" style AR-15 semi-auto safety selectors. However, there is always a possibility that a new lower or trigger design, unknown to us, is incompatible with our safety. Specs: SKU: BAD-ASS-PRO UPC: 810033782541 Manufacturer: Battle Arms Development, Inc.

Center Material/Finish: Swiss CNC Machined Bar-Stock Steel Core, Hardened, Black Phosphate  
Lever Material/Finish: Investment Cast 8620 Steel, Black Phosphate

# Safety Instruction Guide for AR15 BADASS PRO Safety Selectors

## Introduction

Thank you for choosing the AR15 BADASS PRO Safety Selector by Battle Arms Development, Inc. This product is designed to enhance the safety and functionality of your AR15 platform. It is important to read and understand this safety instruction guide to ensure safe and proper use of the product.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling the safety selector.
- Use the safety selector only as intended and in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the safety selector for any signs of wear or damage.
- If you experience any issues with the safety selector, cease use immediately and consult a qualified gunsmith or contact customer support.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the safety selector is compatible with your AR15 model and lower receiver.
- Be aware of the reversible throw options (0°/60° and 0°/90°) and ensure you are familiar with how to operate them.
- Avoid modifying the safety selector or using it in a manner not specified in the instructions.
- Ensure that the locking mechanism is fully engaged before relying on the safety selector.
- Do not force the safety lever if it does not operate smoothly; this may indicate an issue that requires attention.

## Instructions for Installation and Usage

### Installation

#### 1. Prepare Your Workspace

- Ensure you have a clean, welllit area to work in.
- Gather necessary tools: 5/64" hex key and any other required tools.

#### 2. Remove the Existing Safety Selector (if applicable)

- Ensure the firearm is unloaded.
- Follow the manufacturer's instructions for safely removing the existing safety selector.

#### 3. Install the BADASS PRO Safety Selector

- Insert the reversible safety center into the safety selector hole of the lower receiver.
- Choose your desired throw option (0°/60° or 0°/90°) and make sure it is securely in place.
- Attach the standard and/or short lever to the safety center, ensuring they are fully seated.
- Use the provided set screws to secure the levers in place. Ensure they are tightened but do not overtighten to avoid stripping.

#### 4. Check Functionality

- Test the safety selector to ensure it operates smoothly and properly engages in both safe and fire

- positions.
- Ensure that the locking mechanism functions correctly and that the safety selector does not wobble.

## **Usage**

- To engage the safety, push the lever to the "safe" position.
- To disengage the safety, push the lever to the "fire" position.
- Always check the firearm's condition and ensure it is pointed in a safe direction before engaging or disengaging the safety.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local regulations.
- If the safety selector reaches the end of its service life, it should be disposed of in a way that prevents accidental reuse.
- Consider recycling materials where applicable, following local guidelines for disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the AR15 BADASS PRO Safety Selector, please refer to the manufacturer's website or contact customer support directly. It is recommended to keep a record of your purchase for warranty purposes.

## **Conclusion**

The AR15 BADASS PRO Safety Selector is a reliable and innovative product designed to enhance the safety of your firearm. By following the guidelines outlined in this safety instruction guide, you can ensure safe and effective use of your new safety selector. Thank you for choosing Battle Arms Development, Inc.
