

LEVEL RIGHT PRO - REAL AVID LEVEL RIGHT PRO

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Optical Boresighter Kits](#)

A revolutionary, innovative scope leveling and scope mounting system. Correctly mounting a scope so it's level to the gun's receiver is critical to getting maximum accuracy from your rifle. A level scope means that the reticle (crosshairs) will be perfectly aligned with the rifle bore. Balancing small levels on a scope turret and gun receivers has been a commonly accepted practice for years. Not only is this a clumsy process, it's wrong. The turret on most scopes is not perfectly aligned with the reticle (crosshairs), so even if your turret is level to the gun, your scope may not be. Level-Right Pro changes all that by simplifying scope alignment in 4 easy steps. Accurate and intuitive, this time saving instrument quickly aligns the actual scope reticle to the horizontal gun plane (regardless of turret alignment), which is key to the long-range accuracy of your rifle. Level-Right Pro helps you quickly and confidently mount a scope for maximum accuracy.
