

MODULAR HOLSTER ADAPTERS - TRUE NORTH CONCEPTS

MODULAR HOLSTER ADAPTER BLACK

[Shooting Accessories](#) > [Holsters & Belt Gear](#) > [Holster Accessories](#)

The Modular Holster Adapter was specifically designed to eliminate the unwanted movement, flex and sliding common to factory polymer belt adapters. The Modular Holster Adapter is made from rugged, non-ferrous DFARS grade 6061-T6 aluminum and is Type 3 MIL-SPEC hard coat anodized. It supports the popular "Mid-ride" mode of carry to lower the pistol below the shooters belt line, allowing their holster system to clear body armor and pouches. This adapter fits all "three hole" pattern Safariland™ type holsters, and other brands of holster that use this proven method of attachment. It also supports the use of many commonly used quick detach holster systems such as the QLS, MLS, ELS, and others. Holsters mounted to the Modular Holster Adapter will accommodate 10° of forward cant and 10° of negative cant for a total range of 20° degrees. The adapter holds three height mounting points, set 1/2" apart, descending from the top mid-ride mounting point. Rigidity is key: The adapter includes belt mounting bars which are sized and spaced for use on MOLLE type battle belts, by threading each bar through the belts PALS webbing. This application works extremely well on narrow, minimalist type battle belts such as those from Ronin or Tyr Tactical. Alternatively, these mounting bars can also be directly bolted to any standard gun belt up to 2 1/4" wide. When properly installed on your gun belt, the adapter will not move. All unwanted movement, slipping and sliding has been removed from your system. The Modular Holster Adapter includes top mounting points for using a wide array of popular quick release belt mounts such as the Tek-Lok™ and polymer MOLLE type hardware. Each Modular Holster Adapter comes with a complete hardware kit of various sized screws, posts, spacers and threadlocker for mounting. The adapter is available in Black and Dark Earth anodized finishes.

Modular Holster Adapter Safety Instruction Guide

Introduction

Thank you for choosing the Modular Holster Adapter by True North Concepts. This product is designed to enhance your holster system by providing a secure and reliable attachment. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the Modular Holster Adapter is compatible with your holster and belt system before installation.
- Regularly inspect the adapter for wear and tear, and replace any damaged components immediately.
- Keep the adapter out of reach of children and vulnerable individuals to prevent accidental injury.
- Always follow local laws and regulations regarding the use of holsters and firearms.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Avoid Improper Installation:** Ensure that the adapter is installed according to the provided instructions. Improper installation may lead to failure during use.
- **Check Load Capacity:** Do not exceed the weight limits specified for the adapter and holster system.
- **Use Approved Accessories:** Only use accessories and components that are compatible with the Modular Holster Adapter.
- **Maintain Awareness:** Be aware of your surroundings when using the holster system to avoid accidents.
- **Secure Attachment:** Ensure that the adapter is securely fastened to your belt and holster before use to prevent slipping or detachment.

Instructions for Installation and Usage

1. **Gather Required Tools:** Before beginning installation, ensure you have the necessary tools, including a screwdriver and any other required hardware.
2. **Identify Mounting Points:** Locate the three height mounting points on the Modular Holster Adapter. These points are spaced 1/2 inch apart.
3. **Attach to Belt:**
 - Thread the belt mounting bars through the PALS webbing on MOLLE type battle belts.
 - Alternatively, bolt the mounting bars directly to a standard gun belt up to 2 ¼ inches wide.
4. **Secure the Holster:**
 - Align your holster with the adapter and use the provided screws and posts to secure it in place.
 - Ensure that the holster is positioned for optimal accessibility and comfort.
5. **Adjust Cant:** The adapter allows for a total range of 20 degrees of cant. Adjust the holster angle to suit your preference.
6. **Final Check:** Before use, doublecheck all connections and ensure that the adapter is firmly in place.

Disposal Instructions

- Dispose of the Modular Holster Adapter and any associated components in accordance with local regulations.
- Recycle materials whenever possible to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product support, please refer to the manufacturer's website or contact your local distributor.

Thank you for your attention to these safety guidelines. Enjoy using your Modular Holster Adapter responsibly!
