

FAST MICRO MOUNT FOR AIMPOINT MICRO SIGHTS - UNITY TACTICAL FAST MICRO MOUNT FOR AIMPOINT BLACK

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The FAST™ Micro mount features built-in standard height back up iron sights that keep weapons uncluttered, without reducing capability. Both front and rear BUIS are completely adjustable for windage and elevation. The front sight post can be removed so that the rear BUIS aperture can be used with a traditional front sight such as their FUSION fixed or folding sights (if present), creating a more conventional sight radius. However, the built in front/rear BUIS is perfect for backup on super short PDW/SMG platforms where rail space is critical for mounting lights and lasers. Designed for Aimpoint® Micro (H1, H2, T1, T2, CompM5) and other optics with Aimpoint® Micro footprint, such as those found on many Sig Sauer®, Holosun™, Primary Arms®, and Vortex Optics® platforms. NOTE: DOES NOT FIT AIMPOINT® COMP M5S OR M5B. It comes standard with a two cross bolt rail clamp or can be retrofitted with the FAST™ QD (Quick Detach) Lever. FAST™ is a series of optic mounting solutions that provides end users with a quicker sight picture than standard height mounts. FAST™ mounts position most optics at a 2.26" optical centerline from the rail, which allows for more rapid visual processing of the battlefield by ensuring an ergonomically correct heads-up posture. Further, they provide faster and easier dot/reticle acquisition while wearing night vision goggles, protective masks, plate carriers and other gear. SPECS: HEIGHT: 2.26" to Optical Centerline COMPATIBILITY: Aimpoint® Micro (H1, H2, T1, T2, CompM5), Vortex® Optics Crossfire, Sig Sauer® Romeo4T, Holosun™ 503 INTERFACE: Micro Footprint BUIS: Fully Adjustable Front / Rear MOUNT TYPE: 2 Cross Bolt Rail Clamp FAST™ QD Lever Compatible (Sold Separately) DIMENSIONS (W X L X H): IN: < 1.4 X 2.2 X 2.1 CM: < 3.6 X 5.6 X 5.3 WEIGHT: OZ: <3.5 GRAMS: <99.2 MATERIAL: 7075-T6 Aluminum COATING: Type III Hardcoat Anodized *NOTE* "FDE" is used throughout Unity's catalog to reference a spectrum of colors that include tan, brown, bronze, earth, and everything in between. Due to the chemical process that takes place during Type III Hardcoat, the final finish can vary from part to part (even parts done in the same batch). Therefore, your "FDE" product may vary from other parts from UNITY and other companies, and may vary from the photos shown online.

Attributes

- Name: [UNITY TACTICAL FAST MICRO MOUNT FOR AIMPOINT BLACK](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043326
- Mfr. No.: FST-MICB
- Colour: Black
- Fits / Used For: Aimpoint Micro T2,Aimpoint Micro H1,Aimpoint Micro T1,Aimpoint Micro Comp5,Aimpoint Micro H2
- Height: 2.26"
- Weight: 0.2 lbs
- Delivery weight: 0.145kg
- Shipping height: 64mm
- Shipping width: 89mm
- Shipping length: 13mm

- UPC: 810007880013

FAST Micro Mount for Aimpoint Micro Sights

Safety Instruction Guide

Introduction

Thank you for choosing the FAST Micro Mount for Aimpoint Micro Sights by Unity Tactical. This guide provides essential safety information and instructions for the proper use and maintenance of your product. Please read this guide thoroughly to ensure safe and effective use.

General Safety Guidelines

- Ensure the mount is compatible with your optic before installation.
- Regularly inspect the mount for any signs of wear or damage.
- Avoid using the mount in extreme conditions that may compromise its integrity.
- Do not modify the mount in any way, as this may affect its safety and performance.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Installation Precautions:**
 - Ensure the mounting surface is clean and free of debris before installation.
 - Use only the recommended tools for installation to avoid damaging the mount or the firearm.
- **Operational Precautions:**
 - Always doublecheck the stability of the mount after installation and before use.
 - Do not exceed the manufacturer's specified weight limits for accessories mounted on the rail.
 - Be aware of your surroundings and ensure safe handling practices when using the firearm.
- **Maintenance Precautions:**
 - Regularly clean the mount to prevent buildup of dirt or corrosion.
 - Check for loose screws or bolts and tighten them as necessary.
 - If any component of the mount is damaged, discontinue use immediately and contact support.

Instructions for Installation and Usage

1. Installation:

- Begin by selecting the appropriate mounting location on your firearm.
- Clean the mounting area to ensure a secure fit.
- Align the FAST Micro Mount with the mounting surface.
- Use the provided cross bolt rail clamp to secure the mount in place. Ensure it is tightened adequately.
- If using the FAST QD Lever (sold separately), follow the specific installation instructions provided with that accessory.

2. Usage:

- Once installed, adjust the builtin back up iron sights (BUIS) for windage and elevation as needed.
- Use the front sight post if you prefer a traditional sight radius, or utilize the builtin BUIS for compact setups.
- Always ensure the mount and optics are securely attached before engaging in any activities.

Disposal Instructions

- Dispose of the FAST Micro Mount in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal options.

Contact Information for Further Support

For any inquiries regarding the FAST Micro Mount or safety concerns, please refer to the manufacturer's website or contact their customer service directly.

Thank you for following these safety instructions. Your safety and satisfaction are our top priorities.
