## A Duty-Ready Optics Mount Designed for Your Red-Dot-Ready Smith & Wesson Pistol

RDS-equipped handguns are here to stay, and you can enhance your red-dot-equipped Smith & Wesson handgun by adding a C&H Precision V4 MIL/LEO Optics Mounting Plate to your gun. This dedicated design is made to enhance the strength of this critical connection point between your optic and handgun, giving you a more durable weapons platform. Each C&H Precision V4 MIL/LEO Optic Mounting Plate designed for use on Smith & Wesson pistols is machined from 6061 aluminum and treated with a hard-anodized finish. The plates are equipped with two recoil posts, and all of the company's V4 plates come with replaceable T-posts made from stainless steel. The plates are secured with Torx head screws designed for the best possible retention. Each plate fits Smith & Wesson M1.0 and M2.0 pistols and will accommodate the following optics: Trijicon RMR, Trijicon SRO, Holosun 407C, Holosun 407C V2, Holosun 507C, Holosun 507C V2, Holosun 508T, Holosun 508T V2.

# Safety Instruction Guide for V4 MIL/LEO S&W M&P Optic Mounting Plate

## Introduction

Thank you for choosing the C&H Precision V4 MIL/LEO Optic Mounting Plate for your Smith & Wesson M&P M2.0. This guide provides essential safety instructions to ensure safe usage and installation of the product. Please read this guide carefully before use to understand the safety measures and proper handling of the mounting plate.

## General Safety Guidelines

- Ensure that the mounting plate is compatible with your specific model of Smith & Wesson handgun before installation.
- Always inspect the mounting plate for any signs of damage or defects before use.
- Use the mounting plate in accordance with the manufacturer's instructions to avoid accidents.
- Keep the mounting plate out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the relevant authorities and check for recall updates.

## Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing the mounting plate.
- Do not attempt to modify the mounting plate or use it with any other products not specified by the manufacturer.
- Use only the recommended Torx head screws provided with the mounting plate for secure attachment.
- Avoid using excessive force when tightening screws to prevent damage to the mounting plate or firearm.
- Be aware of the potential for recoil during firing and ensure that the mounting plate is securely attached to prevent detachment.
- Regularly check the mounting plate and screws for tightness and integrity during routine firearm maintenance.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a Torx screwdriver.

### 2. Installation:

- Align the mounting plate with the mounting holes on the slide of your Smith & Wesson M&P M2.0.
- Insert the provided Torx head screws into the mounting holes.
- Use the Torx screwdriver to tighten the screws securely. Do not overtighten.

### 3. Optic Attachment:

- Follow the manufacturer's instructions for attaching your optic (e.g., Trijicon RMR, Holosun 407C).
- Ensure that the optic is securely mounted and properly aligned.

### 4. PostInstallation Check:

- Inspect the installation to ensure that the mounting plate and optic are securely attached.

- Conduct a function check by operating the firearm in a safe environment.

## **Disposal Instructions**

- Dispose of the mounting plate according to local regulations for metal recycling.
- If the product is damaged or no longer in use, ensure it is disposed of safely to prevent any potential hazards.

## **Contact Information for Further Support**

For any inquiries or support regarding the V4 MIL/LEO Optic Mounting Plate, please refer to the manufacturer's website or customer service channels for assistance.

Thank you for your attention to these safety instructions. Your safety and the proper functioning of your equipment are of utmost importance.
