

# RIGID TQ CASE JACKET - ELEVEN 10 RIGID CAT GEN 7 CASE JACKET, COYOTE

[Emergency & Survival Gear](#) > [First Aid](#) > [First Aid Supplies](#)

The Eleven 10® RIGID TQ Case® Jacket v2 for C-A-T® or SOF®TT/SOF®TT-W is an optional accessory that when installed, completely covers your tourniquet to protect it from the elements. It also helps provide a clean, uniform look. The Jacket integrates with the existing hardware on your RIGID's rear mounting face, and the included snap uses an existing hole on the front of the Cross Front RIGID models. When deployed, the Jacket ""breaks away"" so there is no snagging on your tourniquet. The updated version of the Jacket is made with Blue Force Gear's ULTRACOMP® material. ULTRACOMP® combines the properties of a rubber based laminate - resistance to tear, abrasion, water, bacteria and fungus - and added a Cordura® fabric facing for color or pattern and reduced IR signature. Features: ULTRACOMP® One-Piece Construction Lightweight construction adds little weight to your RIGID TQ Case® Velcro® Loop square for a medical identifier patch Integrates into the Cross Front RIGID TQ Case® with no case modifications Completely covers the tourniquet Break-Away design allows smooth removal of your tourniquet with no snagging Comes with all necessary hardware Does not include the RIGID TQ Case® NOTE: Will not work with the Slick Front RIGID TQ Case® or the legacy Kydex TQ Cases All of Eleven 10®'s products are designed, manufactured and assembled in the USA.
