

# VANGUARD 2 HOLSTERS ADVANCED KIT - RAVEN CONCEALMENT SYSTEMS VANGUARD 2 ADVANCED M&P SHIELD BLACK

[Home](#)

The VanGuard 2 Advanced Kit is a capability upgrade to the venerable VanGuard 2 minimalist IWB holster. Unlike traditional IWB holsters, the VG2 covers only the trigger guard of your weapon. This unique design eliminates the bulk of a traditional holster, while providing a level of safety and security not attainable by simply sticking a pistol in the waistband of your pants. The VG2 Advanced Kit's inclusion of the RCS CLAW takes this system's concealability to the next level, by leveraging the grip of the pistol close to the body, while still allowing for a clean, repeatable draw. The VanGuard 2 Advanced Kit with the RCS CLAW can be equipped with either a Tuckable strut with overhook or Tuckable strut with soft loop, to allow you to choose the best belt interface system for your carry and mission type. This combination is adjustable for ride-height and cant, is fully ambidextrous, and is the ultimate in deep concealment technology when combined with our proprietary tuckable struts. Please note that the VG2 Advanced kit is not compatible with the Basic Kit Strut or the Lanyard option. VG2 CLAWs are only compatible with the model of VG2 shell specified. For example, a Glock VG2 CLAW will NOT fit a M&P VG2 holster shell. Please be aware, RCS does not advise attempting to re-holster the weapon while the VG2 is inside your clothing. You should remove the VG2 and install it on the weapon outside of your waistband.

## Attributes

- Name: [RAVEN CONCEALMENT SYSTEMS VANGUARD 2 ADVANCED M&P SHIELD BLACK](#)
- Manufacturer: [RAVEN CONCEALMENT SYSTEMS](#)
- Product no.: 100044117

# VANGUARD 2 HOLSTERS ADVANCED KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the VANGUARD 2 Advanced Kit from RAVEN CONCEALMENT SYSTEMS. This guide provides important safety instructions and guidelines to ensure the safe use of your holster. Please read this manual carefully before using the product.

## General Safety Guidelines

- Ensure that the holster is compatible with your firearm model. The VG2 Advanced Kit is designed specifically for the Smith & Wesson M&P Shield.
- Always check that your firearm is unloaded before inserting it into the holster.
- Avoid attempting to reholster your weapon while the VG2 is inside your clothing. Always remove the holster and reholster the weapon outside of your waistband.
- Be aware of your surroundings and avoid using the holster in situations where it may cause harm or injury to yourself or others.
- Regularly inspect the holster for any signs of wear or damage. If any issues are found, discontinue use immediately and contact the manufacturer for guidance.
- Store the holster in a safe place, away from children and unauthorized users.

## Specific Safety Precautions for Use

- The VG2 Advanced Kit is designed for deep concealment. Ensure that the holster is adjusted properly for rideheight and cant to ensure comfort and accessibility.
- The RCS CLAW included in the kit is intended to improve concealability by keeping the grip of the firearm close to the body. Ensure that it is securely attached before use.
- Use the Tuckable strut with either the overhook or soft loop to find the best fit for your belt and personal carry style.
- Always practice safe handling of your firearm. Keep your finger off the trigger until you are ready to shoot.
- If you are unfamiliar with holsters or firearm safety, seek guidance from a qualified instructor or professional.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is unloaded.
- Gather the components of the VG2 Advanced Kit: the VG2 shell, RCS CLAW, and your chosen Tuckable strut.

### 2. Attaching the RCS CLAW:

- Align the RCS CLAW with the designated attachment points on the VG2 shell.
- Securely fasten the CLAW using the provided screws, ensuring it is tight but not overtightened.

### 3. Selecting the Tuckable Strut:

- Choose between the overhook or soft loop based on your preference and belt type.
- Attach the chosen strut to the VG2 shell, following the same method as for the RCS CLAW.

#### **4. Adjusting for Comfort:**

- Adjust the rideheight and cant of the holster to your comfort level. This may require some trial and error to find the optimal position.
- Ensure that the holster is securely fastened to your belt before wearing.

#### **5. Wearing the Holster:**

- Position the holster inside your waistband, ensuring it is snug against your body for optimal concealment.
- Check that the firearm is secure in the holster and that you can easily access it when needed.

## **Disposal Instructions**

- Dispose of the holster in accordance with local regulations. If the holster is damaged or no longer in use, ensure that it is kept out of reach of children and unauthorized users.
- If applicable, recycle any plastic components in accordance with your local recycling guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the VANGUARD 2 Advanced Kit, please refer to the manufacturer's contact details provided with your product packaging or visit their official website for more support.

By following these safety instructions, you can ensure a safe and effective experience with your VANGUARD 2 Advanced Kit. Thank you for prioritizing safety!
