SHOTGUN CLEANING KIT WITH BRASS CLEANING ROD SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the SHOTGUN CLEANING KIT WITH BRASS CLEANING ROD by OUTERS. This product is designed to help you maintain your shotgun safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and to understand the necessary precautions.

General Safety Guidelines

- Ensure that you are familiar with the operation of your shotgun before using this cleaning kit.
- Always follow local laws and regulations regarding firearm maintenance and cleaning.
- Keep the cleaning kit out of reach of children and unauthorized users.
- Inspect all components of the cleaning kit for damage before use.
- Do not use the cleaning kit for purposes other than intended.
- Report any unsafe products or accidents related to this cleaning kit to the appropriate authorities.

Specific Safety Precautions for Use

- Always ensure that your shotgun is unloaded before cleaning.
- Use the cleaning rod and brushes gently to avoid damaging the bore of the shotgun.
- Do not force the cleaning rod through the bore; if resistance is felt, stop and check for obstructions.
- Use the phosphor bronze bore brush and microfiber absorbent patches as directed to avoid excessive wear.
- Store all components of the cleaning kit in a secure location after use.
- Avoid contact with cleaning solvents and lubricants; follow manufacturer's instructions for safe handling.
- Do not use the cleaning kit in wet or damp conditions to prevent slips and falls.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your shotgun is completely unloaded and pointed in a safe direction.
- Gather all components of the cleaning kit: brass cleaning rod, bore brush, slotted patch loop, rod adaptor, and microfiber patches.

2. Assembling the Cleaning Rod:

- Connect the three pieces of the brass cleaning rod by screwing them together until secure.
- Attach the rod adaptor to the end of the cleaning rod.

3. Using the Bore Brush:

- Attach the phosphor bronze bore brush to the rod adaptor.
- Insert the brush into the shotgun's bore and gently push it through from the chamber to the muzzle.
- Repeat this process as needed, but do not force the brush.

4. Using the Slotted Patch Loop:

- Remove the bore brush and attach the slotted patch loop to the rod adaptor.
- Insert a microfiber absorbent patch into the slotted patch loop.

- Insert the patch into the bore and pull it through to clean the interior surface.

5. Cleaning and Lubricating:

- Use the 2ounce bottle of TriCare to protect, clean, and lubricate the shotgun.
- Follow the instructions on the bottle for proper application.

6. Storage:

- After cleaning, disassemble the cleaning rod and store all components in the reusable clamshell.
- Ensure that the cleaning kit is stored in a cool, dry place, away from direct sunlight.

Disposal Instructions

- Dispose of any used cleaning patches and materials in accordance with local waste disposal regulations.
- Do not dispose of cleaning solvents or lubricants down drains or in the environment; follow local hazardous waste disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the SHOTGUN CLEANING KIT WITH BRASS CLEANING ROD, please reach out to the manufacturer's customer support. Ensure you have the product details available for reference.

Thank you for your attention to these safety instructions. Proper use and maintenance of your shotgun cleaning kit will ensure your safety and the longevity of your firearm.
