

BORE-MAX SPEED BRUSH - REAL AVID 40 CALIBER BORE-MAX SPEED BRUSH

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

The Bore-Max Speed Brush is a component of the Bore-Max Speed Clean System for faster and easier bore cleaning. Carbon build-up not only affects performance and accuracy, but also causes degradation of the bore. Carbon build-up also insulates the copper fouling in the bore making it difficult to dissolve and remove with bore solvent. Using a bore brush to remove this carbon build-up is the best way to tackle the job. In order to achieve maximum effectiveness, there needs to be an optimal balance between bristle density and bristle flexibility. Having too few bristles is a waste of time and too many won't provide enough flexibility to navigate the lands and grooves of the bore. The bristle configuration of the Bore-Max Speed Brush provides maximum scrubbing density removing more carbon with each pass and getting maximum results faster.

Attributes

- Name: [REAL AVID 40 CALIBER BORE-MAX SPEED BRUSH](#)
- Manufacturer: [REAL AVID](#)
- Product no.: 100047679
- Mfr. No.: AVBMSB40
- Caliber: 40 Caliber
- Style: Handgun
- Delivery weight: 0.045kg
- Shipping height: 13mm
- Shipping width: 70mm
- Shipping length: 171mm
- UPC: 813119013461

Safety Instruction Guide for BOREMAX SPEED BRUSH

Introduction

The BOREMAX SPEED BRUSH is designed to provide efficient bore cleaning for 40 caliber firearms. This guide outlines important safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the product instructions before use.
- Use the product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Store the product in a cool, dry place away from direct sunlight.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including eye protection, when using the bore brush.
- Do not use excessive force when cleaning, as this may damage the bore or the brush.
- Ensure the firearm is unloaded and pointed in a safe direction before cleaning.
- Avoid using the brush on firearms that are not designed for 40 caliber ammunition.
- Do not use the brush on a hot bore; allow the firearm to cool down before cleaning.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather all necessary cleaning supplies, including the BOREMAX SPEED BRUSH and bore solvent.

2. Using the Bore Brush:

- Attach the BOREMAX SPEED BRUSH to a cleaning rod.
- Apply an appropriate amount of bore solvent to the brush.
- Insert the brush into the bore, making sure it is aligned with the rifling.
- Use a smooth, steady motion to scrub the bore, moving the brush back and forth.
- Repeat the process until carbon buildup is removed, checking the brush for debris as necessary.

3. PostCleaning:

- After cleaning, remove the brush from the bore.
- Wipe down the firearm with a clean cloth to remove any excess solvent.
- Store the BOREMAX SPEED BRUSH and other cleaning supplies in a safe location.

Disposal Instructions

- Dispose of the BOREMAX SPEED BRUSH in accordance with local regulations.
- Do not dispose of the product in household waste if it is deemed hazardous.

- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the BOREMAX SPEED BRUSH, please refer to the designated EU contact point provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective cleaning experience with the BOREMAX SPEED BRUSH.
