

STRIKE IRON SIGHT SET FOR SMITH & WESSON M&P9 - STRIKE INDUSTRIES SMITH & WESSON M&P9 IRON SIGHT SET STANDARD HEIGHT

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

The Strike Iron Sights (Suppressor Height) give you an elevated sight picture for a red dot or suppressor pistol setup. The front and rear sights sit at an absolute co-witness position with a slide mounted red dot. Designed to help with proper sight alignment and keep the shooter's eyes focused, there is natural light that is seen on both sides of the front sight between the u-notch rear sight. Steps placed in the rear of both sights help angle and reduce unwanted glares or reflections out of your eyes. Lines and angles designed to use natural light reflections and shadow play to keep user's eye aligned and focused on the target. The rear sight is designed with a negative angle so that the shooter will see the back wall as dark as possible to give total focus on the sights. The line running down the middle of the rear sight is there to catch light from above and create a "line" illusion in which the shooter can use it to assist in aiming. The front sight can be painted to user's color preference or use glow-in-the-dark paint to customize the look and use of the sights. Made from SUS630 hardened stainless steel, the Strike Iron Sights For (Suppressor Height) is engineered to be as robust as possible while giving you one of the most budget friendly options on the market.

Safety Instruction Guide for Strike Iron Sight Set for Smith & Wesson M&P9

Introduction

Thank you for choosing the Strike Iron Sight Set for your Smith & Wesson M&P9. This guide provides essential safety instructions and usage information to ensure that you can enjoy your product safely and effectively. Please read this guide carefully before use.

General Safety Guidelines

- Always handle sights with care to avoid damage.
- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Use appropriate tools for installation to prevent injury or damage.
- Regularly inspect the sights for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm modifications.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe product experiences or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the sights are installed correctly before use.
- Be aware of your surroundings and ensure a safe shooting environment.
- Use protective eyewear when shooting to safeguard against debris.
- Avoid using the sights in adverse weather conditions that may impair visibility.
- Do not alter the sights in any way, as this may compromise their safety and effectiveness.
- If you experience any issues with sight alignment or focus, cease use and consult a professional.

Instructions for Installation and Usage

Installation

1. **Prepare Your Firearm:** Ensure the Smith & Wesson M&P9 is unloaded and pointed in a safe direction.
2. **Remove Existing Sights:** Use appropriate tools to carefully remove the original sights.
3. **Install Front Sight:** Align the front sight in its designated slot and secure it according to the manufacturer's instructions.
4. **Install Rear Sight:** Align the rear sight with the slide and secure it firmly.
5. **Check Alignment:** Ensure both sights are properly aligned and coveitness with your red dot sight, if applicable.
6. **Test Stability:** Gently shake the firearm to ensure the sights are securely installed.

Usage

- Align your sights with your target using the unotch rear sight and front sight.
- Maintain focus on the front sight while aiming.
- Adjust your stance and grip to ensure stability while shooting.
- Practice regularly to improve your accuracy and familiarity with the sights.

Disposal Instructions

- Dispose of any damaged or worn sights responsibly.
- Follow local regulations for the disposal of metal products.

- Recycle materials where possible to minimize environmental impact.

Contact Information for Further Support
