

BCT COPPER REMOVER - BREAKTHROUGH CLEAN 2 OZ COPPER REMOVER

[Gun Cleaning & Chemicals](#) > [Solvents & Degreasers](#) > [Solvents](#)

A Dedicated Copper-Removing Solvent That Won't Stink Up Your Shop

Eventually, if you shoot enough rounds through your firearm, you're going to have to deal with that inevitable build-up of copper fouling. Usually, this is a nasty job involving nasty solvents that require all kinds of air circulation and awful smells. Not so with Breakthrough Clean's BCT Copper Remover. Instead of using harsh solvents that can harm your health, this Breakthrough Clean BCT Copper Remover is an odor-free, user-safe, environmentally friendly cleaner that uses no petroleum or ammonia in its formula. It quickly and effectively removes copper build-up in your gun's bore, and it'll do that without harming the metal underneath. It also leaves a thin film that minimizes copper build-up in the future and makes it easier to remove when it eventually does happen. Breakthrough Clean's BCT Copper Remover is available in 2- and 6-ounce bottles.

BCT Copper Remover Safety Instruction Guide

Introduction

Thank you for choosing BCT Copper Remover from Breakthrough Clean. This product is designed to effectively remove copper fouling from your firearm while ensuring user safety and environmental friendliness. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always follow the instructions provided in this guide to ensure safe use of the product.
- Use the product in a wellventilated area to minimize inhalation of any vapors.
- Keep the product out of reach of children and pets.
- Avoid contact with skin and eyes. If contact occurs, rinse thoroughly with water.
- Do not ingest the product. If swallowed, seek medical attention immediately.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Dispose of the product according to local regulations to minimize environmental impact.

Specific Safety Precautions for Use

- Wear protective gloves and safety goggles when using the product to prevent skin and eye irritation.
- Do not mix BCT Copper Remover with other cleaning agents or chemicals, as this may produce harmful reactions.
- If you experience dizziness, headache, or any other adverse effects while using the product, discontinue use and seek fresh air.
- Ensure that all surfaces where the product will be applied are clean and free from contaminants.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove any existing cleaning products or residues from the bore of the firearm.

2. Application:

- Shake the BCT Copper Remover bottle gently before use.
- Apply a small amount of the remover directly into the bore using a cleaning patch or bore brush.
- Allow the product to sit for 5 to 10 minutes to effectively break down the copper fouling.

3. Cleaning:

- After the product has sat, use a clean patch or brush to scrub the bore gently.
- Wipe the bore with a clean patch until no residue or discoloration is visible.

4. Postapplication:

- After cleaning, apply a thin film of oil or lubricant to protect the metal surfaces from future fouling.
- Dispose of used patches and any remaining product according to local regulations.

Disposal Instructions

- Do not dispose of BCT Copper Remover in household waste or down the drain.
- Follow local regulations for hazardous waste disposal.

- Contact your local waste management authority for guidance on proper disposal methods.
