Oversize Expander Ball Soft seating of bullets is a technique used by many top competitors to overcome variables such as inconsistent seating depth and seating depth changes due to throat erosion. Soft seating of bolt action rifle ammunition is accomplished by leaving the bullet seated out far enough so it is pushed back into the case as the rifle bolt is closed. Thus, each bullet is started true to the rifling. Note: Maximum pressures should be approached with caution when loading with this method. Oversized Expander Balls are designed to replace the standard Expander on Forster Sizing dies. These larger Expander Balls produce reloads with lighter bullet tension, allowing you to precisely control bullet release.

Safety Instruction Guide for OVERSIZE "EZ" EXPANDER BALLS

Introduction

Thank you for choosing the OVERSIZE "EZ" EXPANDER BALLS from Forster Products, Inc. This product is designed to enhance your reloading experience by providing better bullet seating and tension control. However, as with any reloading equipment, it is important to understand how to use it safely and effectively. This guide provides essential safety information and instructions for optimal use.

General Safety Guidelines

- Ensure that you are familiar with all aspects of reloading ammunition before using this product.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling ammunition and reloading equipment.
- Keep this product out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding the reloading and use of ammunition.
- Regularly inspect your reloading equipment for signs of wear or damage.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware that improper use of the OVERSIZE "EZ" EXPANDER BALLS may lead to dangerous conditions, including excessive pressure during firing.
- **Maximum Pressure Caution:** When using soft seating techniques, approach maximum pressures with caution. Always refer to reliable reloading manuals for pressure limits.
- **Bullet Seating Depth:** Ensure that the bullet is seated at a safe depth to avoid excessive pressure and ensure proper functioning of the firearm.
- **Compatibility Check:** Confirm that the expander ball is compatible with your Forster Sizing dies before use.
- **Adequate Ventilation:** Use the product in a wellventilated area to avoid inhalation of any dust or particles that may be generated during the reloading process.

Instructions for Installation and Usage

1. Installation:

- Remove the standard expander from your Forster Sizing die.
- Carefully install the OVERSIZE "EZ" EXPANDER BALL into the die.
- Ensure that it is securely fastened and properly aligned.

2. Usage:

- Prepare your cases by cleaning and inspecting them for any damage.
- Insert the bullet into the case mouth, ensuring it is positioned correctly.
- Use the reloading press to push the bullet back into the case as the bolt is closed, allowing for soft seating.
- Monitor the seating depth and adjust as necessary to achieve the desired result.

3. PostUse:

- After using the expander ball, clean it thoroughly to remove any residue.
- Store the expander ball in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or wornout parts in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste. Follow local hazardous waste disposal guidelines.
