Protects Suppressor, Mitigates Mirage

The Cole-Tac Metal Python Suppressor Cover protects your suppressor from dings, keeps you from burning your hands on a hot can and eliminates mirage. Innovative BOA locking straps ensure the Cole-Tac Metal Python Suppressor Cover won't move under recoil and even prevents the cover from stretching over time. Durable Metal Buckles Adjustable Straps No-Slip Cinch Design Fits Suppressors With 1 3/8-1 5/8" Diameters Made of durable 1000 Denier Cordura Nylon, the Cole-Tac Metal Python Suppressor Cover boasts a proprietary fire-resistant lining that withstands heat up to 1800°F. Cole-Tac Metal Python Suppressor covers are not mag-dump rated and will melt. We will not refund or replace a cover that has been melted. If you are needing a full auto rated cover, please use the HTP Suppressor Cover. Click here for sizing charge

ColeTac Metal Python Suppressor Cover Safety Instructions

Introduction

Thank you for choosing the ColeTac Metal Python Suppressor Cover. This product is designed to protect your suppressor from damage, prevent burns, and reduce mirage. To ensure safe and effective use, please read this safety instruction guide thoroughly.

General Safety Guidelines

- Ensure the suppressor cover is compatible with your suppressor's diameter (1 3/8 to 1 5/8 inches).
- Always inspect the cover for damage before each use.
- Never use the suppressor cover on a suppressor that is excessively hot or has been subjected to rapid firing.
- Keep the suppressor cover away from flammable materials.
- Be aware that the cover is not rated for magdump use and will melt under extreme heat.

Specific Safety Precautions for Use

- **Burn Hazard:** The suppressor cover is designed to protect your hands from burns; however, it is essential to remember that the suppressor can still become very hot. Always handle with care.
- **Material Safety:** The cover is made of 1000 Denier Cordura Nylon with a fireresistant lining. It can withstand heat up to 1800°F, but it will melt if exposed to extreme temperatures.
- **Recoil Management:** The innovative BOA locking straps are designed to keep the cover in place during recoil. Ensure that straps are securely fastened before use.
- **Vulnerable Groups:** Keep the suppressor cover out of reach of children and pets to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the suppressor is cool to the touch before installation.
- Clean the suppressor surface to remove any debris or residue.

2. Installation:

- Slide the suppressor cover over the suppressor, ensuring it fits snugly.
- Adjust the BOA locking straps to secure the cover in place. Make sure they are tight enough to prevent movement but not so tight that they damage the cover.

3. Usage:

- Always check the cover before each use to ensure it is not damaged.
- Monitor the temperature of the suppressor during use. If it becomes excessively hot, stop using it and allow it to cool down.
- Avoid using the suppressor cover in conditions where it could come into contact with flammable materials.

Disposal Instructions

- Dispose of the suppressor cover responsibly. If the cover has been damaged or melted, do not attempt to reuse it.

- Follow local regulations for the disposal of synthetic materials.

Contact Information for Further Support

For any questions or concerns regarding the ColeTac Metal Python Suppressor Cover, please refer to the official ColeTac website or contact your retailer for assistance.

Thank you for your attention to these safety instructions. Enjoy your use of the ColeTac Metal Python Suppressor Cover responsibly and safely.
