

1911 COMMANDER 45 DUAL RECOIL SPRINGS - COLT 1911 RECOIL SPRING, COMMANDER, 45, INNER

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Advanced Dual-Spring System Gives You a Softer-Recoiling, More Reliable Pistol These are replacement inner and outer recoil springs for Colt 1911 pistols chambered in 9mm Luger that use the new Colt Dual Spring Recoil System™ originally developed in 2011 for the USMC M45A1 pistol. The inner and outer springs work together to provide enhanced reliability and extended recoil spring service life up to 15,000 rounds. (The standard interval for replacing standard 1911 recoil springs is 5,000 rounds.) Tempered spring steel Correct spring tension for 45 ACP ammo Use ONLY in Colt 1911 Commander Model pistols or clones chambered in 45 ACP Other required components sold separately (described below) These inner and outer recoil springs must be used in conjunction with the other two parts of the Colt Dual Spring Recoil System™: a dedicated guide rod and recoil spring plug.

Safety Instruction Guide for 1911 COMMANDER 45 DUAL RECOIL SPRINGS

Introduction

Thank you for purchasing the 1911 COMMANDER 45 DUAL RECOIL SPRINGS. This product is designed to enhance the performance and reliability of your Colt 1911 pistol. Please read this safety instruction guide carefully to ensure safe and effective use of the recoil springs.

General Safety Guidelines

- Ensure that you are familiar with the operation of your Colt 1911 pistol before using the recoil springs.
- Always handle firearms with care and follow all applicable laws and regulations.
- Store the recoil springs in a safe place, out of reach of children and unauthorized users.
- Regularly inspect the recoil springs for signs of wear or damage.
- Report any unsafe product experiences or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use these recoil springs in Colt 1911 Commander Model pistols or clones chambered in 45 ACP.
- Do not use the recoil springs with any other model or caliber.
- Ensure that the recoil springs are installed correctly as per the installation instructions.
- Never attempt to modify or alter the recoil springs.
- Use only the recommended components of the Colt Dual Spring Recoil System™: a dedicated guide rod and recoil spring plug.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and components for installation.

2. Installation Steps

- Remove the existing recoil spring and guide rod from your Colt 1911 Commander Model pistol.
- Insert the inner recoil spring into the guide rod.
- Place the outer recoil spring over the inner recoil spring.
- Reassemble the recoil spring plug and guide rod into the slide of the pistol.
- Ensure everything is secured and functioning correctly before use.

3. Usage Tips

- Regularly check the tension and condition of the recoil springs during routine maintenance.
- Follow the manufacturer's guidelines for the recommended round count before replacing the recoil springs.
- Store your firearm in a secure location when not in use.

Disposal Instructions

- Dispose of any damaged or worn recoil springs in accordance with local regulations.
- Do not dispose of recoil springs in household waste.
- Consider recycling or returning the product to the manufacturer for proper disposal.

Contact Information for Further Support

For any questions or concerns regarding the 1911 COMMANDER 45 DUAL RECOIL SPRINGS, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety guidelines and instructions, you can ensure the safe and effective use of your 1911 COMMANDER 45 DUAL RECOIL SPRINGS. Thank you for prioritizing safety.
