

PATTERNMAKERS' CABINET RASPS - APEX TOOL GROUP #49

CABINET RASP

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Stock Making Hand Tools](#) > [Patternmakers Cabinet Rasps](#)

Favorite Of Professional Stockmakers For Shaping & Finishing

The famous Nicholson Shoemakers' and Patternmakers' Cabinet Rasps made especially for wood filing where a smooth finish is desired. Comes in two cuts, second or smooth, 10" long cutting surface. Rasp is half-round shape, but slightly wider than usual with wider radius also. Edges are cut (have teeth) and taper slightly from tang to front. We have been looking for these for many years at the suggestion of many, many good gunsmith and stockmaker customers and friends. The unusual tooth design eliminates most "filling" problems, does not gouge into wood or snag cross-grain. Probably the most useful wood rasp for "almost final" shaping and finishing. Teeth are coarser than the Wood Files.

Attributes

- Name: [APEX TOOL GROUP #49 CABINET RASP](#)
- Manufacturer: [APEX TOOL GROUP](#)
- Product no.: 191188460
- Mfr. No.: 18846N

PATTERNMAKERS' CABINET RASPS APEX TOOL GROUP #49 CABINET RASP Safety Instructions

Introduction

Thank you for choosing the PATTERNMAKERS' CABINET RASPS APEX TOOL GROUP #49 CABINET RASP. This guide provides important safety instructions to ensure the safe use of this product. Please read and follow all instructions carefully to avoid any accidents or injuries.

General Safety Guidelines

- Always ensure that the work area is clean and free from any obstructions.
- Use the rasp only for its intended purpose: wood filing and shaping.
- Keep the rasp out of reach of children and vulnerable individuals.
- Wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the rasp.
- Inspect the rasp before each use for any signs of damage or wear.
- Do not use the rasp if it is damaged or if the teeth are worn out.
- Follow all local regulations regarding the use of hand tools.

Specific Safety Precautions for Use

- When using the rasp, always work in a wellventilated area to avoid inhaling wood dust.
- Avoid applying excessive pressure while using the rasp; let the tool do the work.
- Always cut with the grain of the wood to prevent snagging and damaging the material.
- Do not force the rasp through the wood; if it gets stuck, stop and assess the situation.
- Keep your hands and fingers away from the cutting edge of the rasp at all times.
- Store the rasp in a safe place when not in use to prevent accidents.

Instructions for Installation and Usage

1. Preparing for Use:

- Ensure your workspace is organized and all necessary materials are at hand.
- Select the appropriate rasp for your task; the #49 is a second cut rasp, suitable for finer shaping.

2. Using the Rasp:

- Hold the rasp firmly by the handle, ensuring a secure grip.
- Position the rasp at a comfortable angle to the wood surface.
- Begin filing the wood in smooth, even strokes, applying light pressure.
- Regularly check the progress to ensure an even finish.

3. PostUse Care:

- Clean the rasp after use to remove any wood particles and debris.
- Store the rasp in a dry place, away from moisture and extreme temperatures.
- Regularly inspect the rasp for any signs of wear or damage.

Disposal Instructions

- Dispose of the rasp responsibly at a local waste management facility.
- Do not throw the rasp in regular household waste.

- Check local regulations for specific disposal guidelines for hand tools.

Contact Information for Further Support
