

# 1911 TRIGGER PULL KITS - ULTRA LIGHT SPEED II KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

## Match Quality Trigger Pull In A Drop-In Kit

Each kit is tested on a Series 70-style frame to make certain it will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Exposed hammer edges on Ultra-Light, Super?Match and Tactical II are chamfered to minimize slide drag and clothing wear. Each kit contains a hammer, sear, disconnecter, sear spring and hammer spring. ULTRA LIGHT KIT - 3.5 lb. pull weight. Ultra light, skeletonized, hammer; relieved to prevent frame rub. Ultra light match sear and disconnecter. Lightened sear spring, 18 lb. hammer spring. ULTRA LIGHT SPEED II KIT - 3 lb. pull weight. Low-profile, skeletonized hammer relieved to prevent frame rub; ultra-light weight cuts lock time to a minimum. Deep, crisp serrations ensure secure thumb contact for fast, positive cocking. Properly matched spring weights give the specified pull weight and ensure positive ignition. TACTICAL II KIT - 4 lb. pull weight. Tactical II hammer with relieved sides, ultra match sear and disconnecter, light sear spring, 18 lb. hammer spring. TACTICAL MATCH KIT - 4.5 lb. pull weight. Tactical hammer, sear, disconnecter, light pull sear spring, 18 lb. hammer spring. Great for carry guns. WARP SPEED KIT - 3 lb. pull weight. Very low mass hammer, relieved to prevent frame rub. Low mass sear and disconnecter, 18 lb. hammer spring, light pull sear spring. DUTY/CARRY KIT - 4½ lb. pull weight for duty or carry pistols. Comes with classic, military-style spur hammer, for those who prefer that style or are required to have it on duty weapons. Includes sear, disconnecter, 23 lb. hammer spring, and sear spring. PROFESSIONAL KIT - 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations. Contains hammer, sear, disconnecter, 23 lb. hammer spring and tactical sear spring.

## Attributes

- Name: [ULTRA LIGHT SPEED II KIT](#)
- Manufacturer: [CYLINDER & SLIDE](#)
- Product no.: 206000039

# Safety Instruction Guide for 1911 Trigger Pull Kits Ultra Light Speed II Kit

## Introduction

Thank you for choosing the 1911 Trigger Pull Kits Ultra Light Speed II Kit. This guide provides essential safety information and instructions to ensure the safe use and handling of this product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- **Product Safety:** This product is designed to enhance the performance of your firearm while ensuring safe use. Always follow safety precautions when handling firearms.
- **Enhanced Recalls:** In the unlikely event of a product recall, standardized notices will be provided, and free remedies will be available for any dangerous products.
- **Online Shopping:** When purchasing this product online, you are entitled to the same safety protections as when buying in physical stores.
- **Special Consumer Focus:** Extra precautions are advised for vulnerable groups. Ensure that this product is not accessible to children.
- **EU Contact Point:** For safety inquiries, please refer to the designated EU-based contact point.
- **Rapid Alerts:** Stay informed about potential safety issues by checking the EU's Safety Gate platform for updates on unsafe products.

## Specific Safety Precautions for Use

- **Read the Manual:** Always read the manual thoroughly before installation and use.
- **Firearm Compatibility:** Ensure that the kit is compatible with your firearm model. This kit is designed for Series 70 style frames.
- **Proper Installation:** If you are not experienced with firearm modifications, seek assistance from a qualified gunsmith to install the kit.
- **Safety Gear:** Wear appropriate safety gear, including eye protection, when handling or modifying firearms.
- **Check for Damage:** Inspect all parts for damage before installation. Do not use damaged components.
- **Trigger Pull Weight Awareness:** Be aware of the pull weight of the trigger after installation. Adjust your handling techniques accordingly.
- **Secure Storage:** Store all components securely and out of reach of children and unauthorized users.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools for installation.

### 2. Installation Steps:

- Remove the existing trigger components from your firearm following the manufacturer's instructions.
- Install the new components from the kit:
  - **Hammer:** Ensure it is properly seated and functions smoothly.
  - **Sear:** Install the sear ensuring correct alignment.
  - **Disconnecter:** Place the disconnecter in its designated position.
  - **Sear Spring:** Install the lightened sear spring.

- **Hammer Spring:** Install the 18 lb. hammer spring.
- Conduct a function check to verify that all components operate correctly.

### 3. Usage:

- Familiarize yourself with the new trigger pull weight.
- Always handle your firearm with care, following all safety protocols.

## Disposal Instructions

- **Environmental Responsibility:** Dispose of any unused or damaged parts in accordance with local regulations. Avoid disposing of them in regular household waste.
- **Recycling:** Check if local facilities accept metal components for recycling.

## Contact Information for Further Support

For additional support or inquiries regarding safety or product performance, please refer to the designated EU contact point.

By following these guidelines, you ensure not only your safety but also the safety of others around you. Thank you for your attention to these important safety instructions.
