

1911 TRIGGER PULL KITS - CYLINDER & SLIDE ULTRA LIGHT TRIGGER PULL KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Match Quality Trigger Pull In A Drop-In Kit

Each kit is tested on a Series 70-style frame to make certain it will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Exposed hammer edges on Ultra-Light, Super?Match and Tactical II are chamfered to minimize slide drag and clothing wear. Each kit contains a hammer, sear, disconnecter, sear spring and hammer spring. ULTRA LIGHT KIT - 3.5 lb. pull weight. Ultra light, skeletonized, hammer; relieved to prevent frame rub. Ultra light match sear and disconnecter. Lightened sear spring, 18 lb. hammer spring. ULTRA LIGHT SPEED II KIT - 3 lb. pull weight. Low-profile, skeletonized hammer relieved to prevent frame rub; ultra-light weight cuts lock time to a minimum. Deep, crisp serrations ensure secure thumb contact for fast, positive cocking. Properly matched spring weights give the specified pull weight and ensure positive ignition. TACTICAL II KIT - 4 lb. pull weight. Tactical II hammer with relieved sides, ultra match sear and disconnecter, light sear spring, 18 lb. hammer spring. TACTICAL MATCH KIT - 4.5 lb. pull weight. Tactical hammer, sear, disconnecter, light pull sear spring, 18 lb. hammer spring. Great for carry guns. WARP SPEED KIT - 3 lb. pull weight. Very low mass hammer, relieved to prevent frame rub. Low mass sear and disconnecter, 18 lb. hammer spring, light pull sear spring. DUTY/CARRY KIT - 4½ lb. pull weight for duty or carry pistols. Comes with classic, military-style spur hammer, for those who prefer that style or are required to have it on duty weapons. Includes sear, disconnecter, 23 lb. hammer spring, and sear spring. PROFESSIONAL KIT - 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations. Contains hammer, sear, disconnecter, 23 lb. hammer spring and tactical sear spring.

Safety Instruction Guide for 1911 Trigger Pull Kits

Introduction

Thank you for choosing the 1911 Trigger Pull Kits from Cylinder & Slide. Your safety and satisfaction are our top priorities. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure you can use our products safely and effectively.

General Safety Guidelines

- Ensure that all firearm modifications comply with local laws and regulations.
- Only use the trigger pull kits on compatible Series 70 style frames.
- Always handle firearms with care and treat every firearm as if it is loaded.
- Keep trigger pull kits and all firearm components out of reach of children and unauthorized users.
- Regularly inspect all components for wear and tear before use.
- If you are unsure about any aspect of installation or usage, consult a qualified gunsmith.

Specific Safety Precautions for Use

• Hazard Identification:

- Improper installation may lead to malfunction or unsafe firearm operation.
- Using incompatible parts can cause damage to the firearm or injury to the user.
- Always ensure that the firearm is unloaded before beginning any work.

• Avoiding Hazards:

- Follow all installation instructions carefully to avoid improper assembly.
- Use only the recommended tools and techniques for installation.
- Do not modify the trigger pull kits beyond the specified configurations.
- Ensure that all parts are securely installed before using the firearm.

• Age and Audience Specific Warnings:

- These kits are intended for use by individuals who are knowledgeable about firearm safety and maintenance.
- Do not allow children or inexperienced users to handle or install these kits.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and components before beginning the installation.

2. Installation Steps:

- Remove the existing trigger components from the firearm according to the manufacturer's instructions.
- Carefully install the new hammer, sear, disconnect, sear spring, and hammer spring from the kit.
- Ensure that all parts fit correctly and are oriented as per the instructions provided with the kit.
- Test the installation by cycling the action of the firearm without ammunition to ensure proper function.

3. Usage Guidelines:

- After installation, perform a function check to ensure that the trigger operates smoothly and safely.
- If any issues arise during operation, discontinue use immediately and seek assistance from a qualified gunsmith.
- Regularly maintain and inspect the trigger pull kits to ensure they remain in good working condition.

Disposal Instructions

- Dispose of any old or unused parts in accordance with local regulations.
- Do not dispose of components in a manner that could pose a risk to the environment or public safety.
- If you are unsure about disposal methods, consult local waste management authorities for guidance.

Contact Information for Further Support

For further assistance or inquiries regarding the 1911 Trigger Pull Kits, please reach out to the appropriate support channels provided by the manufacturer. Always ensure that you have the necessary information available for a prompt response.

Thank you for prioritizing safety while using our products. Your careful attention to these guidelines helps ensure a safe and enjoyable experience with your firearm modifications.
