

# 1911 TRIGGER PULL KITS - CYLINDER & SLIDE TACTICAL MATCH KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

## Match Quality Trigger Pull In A Drop-In Kit

Each kit is tested on a Series 70-style frame to make certain it will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Exposed hammer edges on Ultra-Light, Super?Match and Tactical II are chamfered to minimize slide drag and clothing wear. Each kit contains a hammer, sear, disconnecter, sear spring and hammer spring. ULTRA LIGHT KIT - 3.5 lb. pull weight. Ultra light, skeletonized, hammer; relieved to prevent frame rub. Ultra light match sear and disconnecter. Lightened sear spring, 18 lb. hammer spring. ULTRA LIGHT SPEED II KIT - 3 lb. pull weight. Low-profile, skeletonized hammer relieved to prevent frame rub; ultra-light weight cuts lock time to a minimum. Deep, crisp serrations ensure secure thumb contact for fast, positive cocking. Properly matched spring weights give the specified pull weight and ensure positive ignition. TACTICAL II KIT - 4 lb. pull weight. Tactical II hammer with relieved sides, ultra match sear and disconnecter, light sear spring, 18 lb. hammer spring. TACTICAL MATCH KIT - 4.5 lb. pull weight. Tactical hammer, sear, disconnecter, light pull sear spring, 18 lb. hammer spring. Great for carry guns. WARP SPEED KIT - 3 lb. pull weight. Very low mass hammer, relieved to prevent frame rub. Low mass sear and disconnecter, 18 lb. hammer spring, light pull sear spring. DUTY/CARRY KIT - 4½ lb. pull weight for duty or carry pistols. Comes with classic, military-style spur hammer, for those who prefer that style or are required to have it on duty weapons. Includes sear, disconnecter, 23 lb. hammer spring, and sear spring. PROFESSIONAL KIT - 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations. Contains hammer, sear, disconnecter, 23 lb. hammer spring and tactical sear spring.

## Attributes

- Name: [CYLINDER & SLIDE TACTICAL MATCH KIT](#)
- Manufacturer: [CYLINDER & SLIDE](#)
- Product no.: 206103050
- Mfr. No.: CS0085

# Safety Instruction Guide for 1911 Trigger Pull Kits

## Introduction

Thank you for choosing the 1911 Trigger Pull Kits by Cylinder & Slide. These kits are designed to enhance the performance of your firearm while ensuring safety and reliability. Please read this guide carefully to understand the safety guidelines and proper usage of the product.

## General Safety Guidelines

- Always follow the basic rules of firearm safety.
- Ensure that the firearm is unloaded before installation or maintenance.
- Use only compatible components and parts as specified in the product description.
- Store the kits in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the components for wear and damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Installation:** Ensure that all components are installed correctly to avoid malfunction.
- **Testing:** Test the trigger pull weight in a safe environment before using the firearm in a live situation.
- **Handling:** Always handle the firearm as if it is loaded, even when it is not.
- **Cleaning:** Clean the components regularly to maintain performance and safety.
- **Training:** Seek professional training if you are unfamiliar with firearm operation and maintenance.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that you have all necessary tools and components ready for installation.
- Read through the entire instruction manual before beginning the installation process.

### 2. Installation Steps:

- Remove the slide and frame from the firearm.
- Follow the specific installation instructions for each kit:
  - **Ultra Light Kit:** Install the ultralight hammer, match sear, and disconnecter with the lighter sear spring and 18 lb. hammer spring.
  - **Ultra Light Speed II Kit:** Install the lowprofile hammer and ensure proper alignment for fast cocking.
  - **Tactical II Kit:** Use the tactical hammer and ultra match sear with the light sear spring.
  - **Tactical Match Kit:** Install the tactical hammer and ensure all components fit securely.
  - **Warp Speed Kit:** Install the low mass hammer and ensure all connections are tight.
  - **Duty/Carry Kit:** Install the militarystyle spur hammer and ensure it meets duty requirements.
  - **Professional Kit:** Ensure all components are installed for optimal performance in highstress situations.

### 3. Testing:

- After installation, test the trigger pull weight in a safe environment.
- Ensure that the trigger operates smoothly and without obstruction.

#### **4. Usage:**

- Always use the firearm in accordance with local laws and regulations.
- Ensure that you are in a safe location when using the firearm.
- Regularly check the functionality of the trigger pull kit components.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the components in regular household waste.
- Check with local authorities for proper disposal methods for firearm components.

## **Contact Information for Further Support**

For safety inquiries and further support, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safer and more enjoyable experience with your 1911 Trigger Pull Kits. Always prioritize safety and remain vigilant while handling firearms.
