MARK II SAFETY DAYTON TRAISTER Safety Instruction Guide

Introduction

Thank you for choosing the MARK II SAFETY DAYTON TRAISTER. This guide provides essential safety information, installation instructions, and usage guidelines to ensure safe and effective operation of your product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the product is used only as intended and that all safety guidelines are followed.
- Regularly inspect the MARK II SAFETY for any signs of wear or damage.
- If any part of the safety mechanism appears to be malfunctioning, discontinue use immediately and seek assistance.
- Keep this product out of reach of children and vulnerable individuals to prevent accidental misuse.
- Always use the product in a safe environment, free from distractions and hazards.

Specific Safety Precautions for Use

- This safety mechanism is designed for righthand operation only. Ensure you are familiar with its function before use.
- Do not attempt to modify or alter the safety mechanism in any way, as this may compromise its effectiveness.
- When installing the safety, ensure that the bolt sleeve is properly slotted as per the installation instructions to avoid malfunctions.
- Avoid using the safety in wet or damp conditions, as moisture can affect its performance.
- Always verify that the firearm is unloaded before installing or adjusting the safety.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure that your firearm is unloaded and the workspace is clean and free of debris.
2. **Slot the Bolt Sleeve:** Carefully slot the bolt sleeve to accommodate the MARK II SAFETY. Ensure that the slotting is precise to avoid any misalignment.
3. **Position the Safety:** Align the MARK II SAFETY with the designated area on your firearm.
4. **Secure the Safety:** Follow the manufacturer's instructions to secure the safety in place. Ensure that it is firmly attached and operates smoothly.
5. **Final Check:** After installation, perform a function check to ensure that the safety operates correctly.

Usage

- To engage the safety, push the lever into the "on" position. Ensure it clicks into place.
- To disengage the safety, push the lever into the "off" position. Confirm that it moves freely and does not stick.
- Always check the safety function before each use to ensure it is operational.

Disposal Instructions

- When disposing of the MARK II SAFETY, follow local regulations for electronic and metal waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options for materials that can be reused.

Contact Information for Further Support

For any safety inquiries or concerns regarding the MARK II SAFETY, please refer to the contact information provided by your retailer or manufacturer. It is important to have a reliable contact point for any safetyrelated questions.

Conclusion

The MARK II SAFETY DAYTON TRAISTER is designed to provide safety and reliability. By following the guidelines and instructions outlined in this manual, you can ensure safe usage and installation. Always prioritize safety and report any concerns regarding product performance to the appropriate authorities. Thank you for your attention to safety.
