

1911 BARREL LINK KIT - EGW BARREL LINK KIT

[Handgun Parts](#) > [Barrel Parts](#) > [Barrel Link Parts](#) > [Barrel Links](#)

Stress-Proof Links To Fit Most Barrel/Frame Combinations

Set of six, stress-proof, hardened chrome-moly steel barrel links helps correct most barrel-to-frame fit and feeding problems on 1911 autos. Includes the following link sizes (measured center-to-center from barrel link pin hole to slide stop hole): factory standard #3 (.278"), as well as #0 (-.015"), #1 (-.010"), #2 (-.005"), #4 (+.005"), and #5 (+.010"). #0 is for Accurail-equipped guns with rails that have been moved down. #1-#5 also available separately.

Safety Instruction Guide for 1911 Barrel Link Kit

Introduction

Thank you for choosing the 1911 Barrel Link Kit by EGW. This kit includes six hardened chromemoly steel barrel links designed to enhance the fit and feeding performance of your 1911 firearm. Please read this safety instruction guide thoroughly to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation and maintenance of your 1911 firearm before using this product.
- Always handle firearms safely and responsibly, following the basic rules of firearm safety.
- Store this product and any related tools out of reach of children and unauthorized users.
- Regularly inspect the barrel links for signs of wear or damage before each use.
- If you experience any issues with your firearm after installation, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Use only with compatible 1911 models: Government, Commander, and Officers.
- Ensure that the barrel link sizes selected are appropriate for your firearm. Refer to the included size specifications.
- Avoid using the barrel links on firearms that have been modified beyond factory specifications unless confirmed safe by a qualified gunsmith.
- Be cautious of sharp edges on the barrel links during handling and installation.
- Always ensure your firearm is unloaded before making any modifications or installations.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded. Remove the magazine and visually inspect the chamber.
- Gather necessary tools, such as a barrel link pin punch and hammer.

2. Selecting the Right Link Size:

- Choose the appropriate barrel link size based on your firearm's specifications:
 - Factory standard #3 (.278")
 - #0 (.015") for Accurailequipped guns with rails that have been moved down
 - #1 (.010")
 - #2 (.005")
 - #4 (+.005")
 - #5 (+.010")

3. Installation Steps:

- Remove the old barrel link by using the pin punch to drive out the link pin.
- Align the new barrel link with the barrel link pin hole and slide stop hole.
- Insert the link pin through the holes, ensuring it is seated properly.
- Check the fit by moving the barrel and slide to ensure proper function.

4. PostInstallation Check:

- After installation, perform a function test to ensure the firearm operates correctly.
- Inspect the barrel link for any misalignment or movement issues.

Disposal Instructions

- Dispose of any old or damaged barrel links according to local regulations for metal waste.
- Do not throw away in regular trash. Check for recycling options in your area.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the 1911 Barrel Link Kit, please refer to the manufacturer's contact information provided with your product packaging.

Important Note: This safety instruction guide is designed to comply with the EU General Product Safety Regulation (GPSR). Please report any unsafe products or accidents to the appropriate authorities and check for recall updates on the EU's Safety Gate platform. Your safety is our priority.
