

# REMINGTON 700, 722, 40X SHORT ACTION STEEL HD SCOPE BASES - REM 700, 722, 40X SHORT ACTION 20 MOA STEEL

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington 700, 722, 40x Short Action Steel Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from hardened steel with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Heavy Duty (HD) mounts are .100" lower than the Lightweight mounts to minimize weight and keep your optic closer to the barrel centerline for improved accuracy. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid 4140 carbon steel pre-hardened to Rc 35-35 before machining. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite.

## Attributes

- Name: [REM 700, 722, 40X SHORT ACTION 20 MOA STEEL](#)
- Manufacturer: [EGW](#)

# Consumer Safety Instruction Guide for REMINGTON 700, 722, 40X SHORT ACTION STEEL HD SCOPE BASES

## Introduction

Thank you for choosing the EGW Remington 700, 722, 40x Short Action Steel Scope Bases. This guide provides essential safety information and instructions to ensure the safe and effective use of your product. Please read through this guide carefully before installation and use.

## General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the product for any signs of damage before installation and use.
- Keep the scope bases out of reach of children and vulnerable individuals.
- Report any unsafe product conditions or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure the firearm is unloaded before installing or adjusting the scope bases.
- Use the appropriate tools when installing the scope bases to avoid damage.
- Do not exceed the recommended torque of 20 inch lbs when securing the screws.
- Use blue Loctite as recommended to secure screws and prevent loosening.
- Avoid using the scope bases in extreme weather conditions that may affect performance.
- If you notice any unusual wear or damage during use, discontinue use immediately and seek assistance.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a Torx® wrench and blue Loctite.
- Ensure the firearm is completely unloaded and safe to handle.

### 2. Installation

- Align the scope bases with the factory scope mount holes on the firearm's receiver.
- Secure the bases using the provided socket head Torx® screws.
- Apply a small drop of blue Loctite to each screw before tightening.
- Use the Torx® wrench to tighten the screws to a torque of 20 inch lbs.
- Ensure that the fullwidth crossslots are gauged to MILSTD 1913 specs.

### 3. Usage

- Once installed, mount your Picatinny or Weaver scope rings onto the scope bases.
- Adjust the scope to achieve the desired eye relief and ensure proper alignment.
- Regularly check the tightness of the screws and the condition of the scope bases during use.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.

- Check with local authorities for specific disposal guidelines related to firearm accessories.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of your REMINGTON 700, 722, 40X SHORT ACTION STEEL HD SCOPE BASES, please consult your retailer or the manufacturer's customer service.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Enjoy your shooting experience responsibly!
