

# REMINGTON XP/XR 100, 7 3-HOLE SHORT ACTION SCOPE BASES - EGW REMINGTON XP/XR 100, MODEL 7 3-HOLE SHORT ACTION 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington XP/XR 100, Model 7 3-Hole Short Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

# **Safety Instruction Guide for REMINGTON XP/XR 100, Model 7 3Hole Short Action Scope Bases**

## **Introduction**

Thank you for choosing the EGW Remington XP/XR 100, Model 7 3Hole Short Action Scope Bases. This guide provides important safety information to ensure the proper and safe use of the product. Please read this guide carefully before installation and use.

## **General Safety Guidelines**

- Always ensure that the firearm is unloaded before installing or adjusting the scope bases.
- Use only compatible scope rings to avoid damage to the scope or the firearm.
- Inspect the scope bases for any visible damage before installation.
- Follow all local laws and regulations regarding firearm modifications and use.
- Store the product in a dry, safe place, away from children and unauthorized users.
- Be aware that misuse or improper installation can lead to serious injury or death.

## **Specific Safety Precautions for Use**

- Ensure that the scope bases are securely mounted to avoid any movement during use.
- Use a torque wrench to apply the recommended torque of 20 inch lbs when installing the bases.
- Apply a drip of blue Loctite to the screws to prevent loosening due to recoil.
- Do not exceed the specified torque to avoid stripping the screws or damaging the bases.
- Keep the installation area clear of distractions and ensure proper lighting.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Gather all necessary tools, including a torque wrench and a Torx® wrench.
- Ensure the firearm is unloaded and pointed in a safe direction.

### **2. Installation Steps**

- Locate the factory scope mount holes on the firearm's receiver.
- Align the EGW scope bases with the mount holes.
- Insert the socket head Torx® screws into the holes of the bases.
- Using the torque wrench, tighten each screw to a torque of 20 inch lbs.
- Apply a small amount of blue Loctite to each screw to secure them in place.

### **3. PostInstallation Check**

- After installation, check that the scope bases are firmly attached and do not move.
- Ensure that the scope rings are compatible and securely mounted onto the bases.

### **4. Usage**

- Adjust the scope for eye relief as needed.
- Regularly check the tightness of the screws, especially after the first few uses.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling the aluminum material if possible.

## **Contact Information for Further Support**

For safety inquiries or support, please contact the manufacturer directly. Ensure you have your product details ready for assistance.

By following these guidelines, you can ensure the safe and effective use of your EGW Remington XP/XR 100, Model 7 3Hole Short Action Scope Bases. Thank you for prioritizing safety in your shooting activities.
