EGW Winchester 70 (.325" Middle Hole Spacing) Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

# Safety Instruction Guide for WINCHESTER 70 .325" MIDDLE HOLE SCOPE BASES

## Introduction

Thank you for choosing the EGW Winchester 70 (.325" Middle Hole) Scope Bases. This guide provides essential safety instructions and guidelines for the safe use, installation, and disposal of your scope bases, ensuring compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all components are intact and free from damage before installation.
- Always follow the manufacturer's instructions for installation and usage.
- Keep the scope bases out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the scope bases for wear and tear, and replace if necessary.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Do not exceed the recommended torque of 20 inch lbs when mounting the scope bases.
- Use a drip of blue loctite for secure mounting, as per the manufacturer's recommendation.
- Ensure that the scope rings used are compatible with Picatinny or Weaver specifications.
- Avoid using the scope bases in adverse weather conditions without proper protection.
- Do not modify the scope bases in any way, as this may compromise safety and functionality.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a Torx® wrench.
- Ensure that the workspace is clean and welllit.

### 2. Installation Steps

- Align the scope bases with the factory scope mount holes on the gun's receiver.
- Insert the socket head Torx® screws through the scope bases into the mount holes.
- Tighten the screws to a torque of 20 inch lbs, ensuring they are secure but not overtightened.
- Apply a drip of blue loctite to each screw for added security.

### 3. Usage Guidelines

- Once installed, adjust the scope to your desired eye relief and ensure it is securely attached.
- Regularly check the tightness of the screws and the condition of the scope bases during use.
- If you notice any instability or movement of the scope, stop using the firearm and inspect the installation.

## Disposal Instructions

- Dispose of the scope bases in accordance with local regulations for metal waste.
- Ensure that all components are disposed of responsibly and do not harm the environment.
- If you are unsure about disposal methods, consult your local waste management authority for guidance.
