

SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT - EGW SAVAGE 110-116 FLAT BACK LA 1-PIECE PICATINNY BASE 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Savage bases will work with any long action flat back Savage rifle with an ejection port. It is also compatible with the Stevens Long actions. The flat back on this mount will accommodate receivers with flat rears, and guns that do not have an accu-trigger. Savages with an accu-trigger will require our round back mount (listed separately). This mount comes standard with a bevel on both sides making it ambidextrous. EGW recommends measuring the hole spacing in your receiver to confirm it matches with the dimensions they have published. Picatinny cross slots run the full length of the rail, which gives the shooter flexibility when mounting scope rings and other accessories. The channel in the center reduces the overall mass of the mount. Also, in many cases, it will not obstruct usage of factory iron sights. EGW one-piece scope mounts are the obvious choice for hunters and tactical shooters alike. EGW machines these in their shop using one of their machining centers. After machining, the mounts are tumbled, sand blasted, and Type III anodized for long lasting durability. Installation: EGW recommends 20 inch lbs of torque and a drip of blue loctite (loctite is sold separately). Recommend: 0 MOA - if shooting 0-500 yards 20 MOA - if shooting 500-1000 yards When zeroing your rifle with a 20 MOA mount, EGW recommends zeroing at 200 yards. The entire mount and accessories (from the mounting screws and wrench down to the packaging) are made in the USA. This mount fits: Savage Model 110 Long Action Flat Rear Receiver Savage Model 111 Long Action Flat Rear Receiver Savage Model 112 Long Action Flat Rear Receiver Savage Model 114 Long Action Flat Rear Receiver Savage Model 116 Long Action Flat Rear Receiver Stevens Model 200 Long Action Flat Rear Receiver

Safety Instruction Guide for SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT

Introduction

Thank you for choosing the SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the scope mount is compatible with your specific model of Savage rifle.
- Always check for any visible damage to the scope mount before installation.
- Store the scope mount in a dry place, away from extreme temperatures and moisture.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the recommended torque of 20 inch lbs when installing the mount.
- Use a drip of blue loctite (sold separately) on the mounting screws to ensure secure attachment.
- Avoid overtightening screws, as this may damage the mount or the rifle.
- Ensure that the mount does not obstruct the use of factory iron sights if applicable.
- If using a rifle with an accutigger, ensure that you have the appropriate round back mount instead of this flat back mount.
- Check the hole spacing in your receiver to confirm compatibility with the dimensions provided by EGW.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a torque wrench and blue loctite.
- Ensure your workspace is clean and free of distractions.

2. Installation Steps

- Remove any existing mounts or accessories from the rifle.
- Align the scope mount with the mounting holes on the receiver.
- Insert the screws through the mount into the receiver holes.
- Tighten the screws to the recommended torque of 20 inch lbs.
- Apply a drip of blue loctite to each screw to secure the mount.

3. Usage

- Once installed, mount your scope according to the manufacturer's instructions.
- Verify that the scope is securely attached and properly aligned.
- Conduct a test fire to ensure that the scope and mount function correctly together.

Disposal Instructions

- Dispose of packaging materials responsibly, following local recycling guidelines.
- If the scope mount is no longer in use, check with local waste management authorities for proper disposal.

methods.

Contact Information for Further Support

For any questions or concerns regarding the product, please consult the manufacturer's website or contact their customer support team directly.

By following these guidelines, you will ensure safe and effective use of your SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT. Thank you for prioritizing safety in your shooting activities.
