

# SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT - EGW SAVAGE 110-116 FLAT BACK LA 1-PIECE PICATINNY BASE 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Savage bases will work with any long action flat back Savage rifle with an ejection port. It is also compatible with the Stevens Long actions. The flat back on this mount will accommodate receivers with flat rears, and guns that do not have an accu-trigger. Savages with an accu-trigger will require our round back mount (listed separately). This mount comes standard with a bevel on both sides making it ambidextrous. EGW recommends measuring the hole spacing in your receiver to confirm it matches with the dimensions they have published. Picatinny cross slots run the full length of the rail, which gives the shooter flexibility when mounting scope rings and other accessories. The channel in the center reduces the overall mass of the mount. Also, in many cases, it will not obstruct usage of factory iron sights. EGW one-piece scope mounts are the obvious choice for hunters and tactical shooters alike. EGW machines these in their shop using one of their machining centers. After machining, the mounts are tumbled, sand blasted, and Type III anodized for long lasting durability. Installation: EGW recommends 20 inch lbs of torque and a drip of blue loctite (loctite is sold separately). Recommend: 0 MOA - if shooting 0-500 yards 20 MOA - if shooting 500-1000 yards When zeroing your rifle with a 20 MOA mount, EGW recommends zeroing at 200 yards. The entire mount and accessories (from the mounting screws and wrench down to the packaging) are made in the USA. This mount fits: Savage Model 110 Long Action Flat Rear Receiver Savage Model 111 Long Action Flat Rear Receiver Savage Model 112 Long Action Flat Rear Receiver Savage Model 114 Long Action Flat Rear Receiver Savage Model 116 Long Action Flat Rear Receiver Stevens Model 200 Long Action Flat Rear Receiver

# Safety Instruction Guide for the SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT

## Introduction

Thank you for choosing the EGW Savage Long Action Flat Back HD Picatinny Scope Mount. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your scope mount. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that the scope mount is compatible with your specific Savage rifle model.
- Always handle firearms responsibly and in accordance with applicable laws and regulations.
- Keep the scope mount and all accessories out of reach of children and unauthorized users.
- Inspect the scope mount for any signs of damage or wear before each use.
- Do not modify the scope mount in any way, as this may compromise its safety and functionality.
- If you notice any issues or concerns during use, discontinue use immediately and consult a professional.

## Specific Safety Precautions for Use

- Always ensure that your rifle is unloaded before installing or adjusting the scope mount.
- Use appropriate tools and follow the installation instructions carefully to avoid accidents.
- Avoid overtightening the screws during installation, as this may damage the mount or the rifle.
- When zeroing your rifle, follow the recommended zeroing distance for optimal performance.
- Be aware of your surroundings and ensure that your shooting area is safe and secure.
- Use eye and ear protection while shooting to prevent injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your rifle is unloaded and in a safe workspace.
- Gather necessary tools: a torque wrench and blue Loctite (sold separately).

### 2. Installation:

- Align the scope mount with the receiver of your rifle.
- Confirm that the hole spacing matches the dimensions provided by EGW.
- Insert the mounting screws and handtighten them.
- Use a torque wrench to apply 20 inch lbs of torque to each screw.
- Apply a drop of blue Loctite to the screws to secure them.

### 3. Usage:

- Attach your scope rings and other accessories to the Picatinny rail.
- Ensure that all accessories are securely fastened.
- Follow the recommended zeroing instructions based on your shooting distance:
  - 0 MOA for shooting 0500 yards
  - 20 MOA for shooting 5001000 yards
- When zeroing with a 20 MOA mount, EGW recommends zeroing at 200 yards.

## **Disposal Instructions**

- Dispose of the scope mount and any packaging materials in accordance with local regulations.
- Do not dispose of the scope mount in household waste.
- Consider recycling materials where possible.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and usage of the SAVAGE LONG ACTION FLAT BACK HD PICATINNY SCOPE MOUNT, please reach out to the appropriate channels for assistance.

Thank you for prioritizing safety and ensuring the proper use of your equipment. Enjoy your shooting experience!
