[Reloading](#) > [Reloading Presses](#) > [Single Stage Presses](#)

If you've got a Forster co-axial reloading press, then there's an easy way to prime cases using your go-to press! The Forster E-Z-Just Shell Holder provides a priming conversion kit designed to work with the company's co-axial press design. Each Forster E-Z-Just Shell Holder features a pair of jaws that clamp onto most rifle and pistol cases used by today's shooters. As long as they have a rim thickness between 0.45-0.72 inches, they'll work with this priming conversion system.

EZJUST SHELL HOLDER PRIMING CONVERSION KIT FOR COAX PRESS

Introduction

Thank you for choosing the EZJUST Shell Holder Priming Conversion Kit for your Forster CoAxial Reloading Press. This guide provides essential safety instructions and usage guidelines to ensure a safe and effective reloading experience. Please read this manual carefully before using the product.

General Safety Guidelines

- Always ensure that the reloading area is clean and free from distractions.
- Keep the reloading press and all components out of reach of children and pets.
- Use the product only for its intended purpose as described in this manual.
- Regularly inspect the Shell Holder and reloading press for any signs of wear or damage.
- If you notice any defects or irregularities, discontinue use immediately and consult a professional.
- Wear appropriate safety gear, including safety glasses, while reloading.
- Store the Shell Holder and all reloading components in a cool, dry place.

Specific Safety Precautions for Use

- Ensure that the rim thickness of the cases you are using is between 0.450.72 inches.
- Do not attempt to use the Shell Holder with cases outside the specified rim thickness range.
- Follow all local laws and regulations regarding the use of reloading equipment.
- Never exceed the recommended load data for your specific caliber and bullet type.
- Always keep your hands and face clear of the press during operation.
- Do not leave the press unattended while in use.
- If you experience any malfunctions, stop using the equipment and refer to the troubleshooting section of this manual.

Instructions for Installation and Usage

Installation

1. **Prepare Your Workspace:** Ensure your reloading area is clean and organized.
2. **Attach the Shell Holder:**
 - Locate the Shell Holder and confirm it is compatible with your Forster CoAxial Press.
 - Insert the Shell Holder into the press according to the manufacturer's instructions.
 - Ensure it is securely fastened before proceeding.
3. **Check Alignment:** Ensure that the Shell Holder is aligned properly with the press mechanism.

Usage

1. **Prepare Cases:** Clean and inspect your cases before reloading.
2. **Insert Case:** Place the case into the Shell Holder, ensuring it fits snugly.
3. **Prime the Case:**
 - Engage the press handle slowly and steadily.
 - Do not force the handle; if resistance is felt, stop and check for alignment issues.
4. **Remove Primed Case:** Once priming is complete, carefully remove the case from the Shell Holder.
5. **Repeat:** Follow the same steps for additional cases.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Do not dispose of the product in household waste. Instead, contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the EZJUST Shell Holder Priming Conversion Kit, please refer to the manufacturer's website or contact the designated support team.

By following these guidelines, you can ensure a safe and effective reloading experience with your EZJUST Shell Holder Priming Conversion Kit. Always prioritize safety and remain informed about best practices in reloading. Thank you for your attention to these important safety instructions.
