

ACCU-RING DIE LOCK RING - FORSTER PRODUCTS, INC. ACCU-RING DIE LOCK RING

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Accu-Ring is a sizing/seater die lock-ring which provides reference marks in increments of thousandths of an inch (0.001"). Sizing die (primary use) - Designed mainly for sizing dies, the Accu-Ring helps you zero in on what you want the headspace length of your cases to be. Seater die (secondary use) - The Accu-Ring also allows you to make fine adjustments to bullet seating depths. Notice: The distance of 0.001" is the distance between a long and short reference mark as shown in Figure 1. This distance indicates the up or down adjustment of the die in the Co-Ax® Reloading Press. Actual up or down movement of the die is 0.000998" per reference mark, which, for all intents and purposes, is one thousandth of an inch (0.001").

Attributes

Safety Instruction Guide for ACCURING DIE LOCK RING

Introduction

Thank you for choosing the ACCURING DIE LOCK RING by Forster Products, Inc. This guide provides essential safety instructions to ensure the proper and safe use of this product. Please read this guide carefully before using the ACCURING to familiarize yourself with its features and safety precautions.

General Safety Guidelines

- Always use the ACCURING in accordance with the manufacturer's instructions.
- Ensure that the product is suitable for your specific reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the ACCURING for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the specified adjustments as indicated by the reference marks.
- Ensure that the die is securely locked in place before operating the reloading press.
- Avoid making adjustments while the reloading press is in operation.
- Use the ACCURING only for its intended purpose as a sizing/seater die lockring.
- Be cautious of sharp edges when handling the ACCURING to avoid cuts or injuries.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged.
- Remove the existing lockring from the sizing or seating die, if applicable.
- Place the ACCURING onto the die and align it properly.
- Tighten the ACCURING securely to prevent any movement during operation.

2. Usage:

- Adjust the die height using the reference marks on the ACCURING.
- For sizing, set the die to achieve the desired headspace length.
- For seating bullets, make fine adjustments to the seating depth as needed.
- After adjustments, always check the position of the die to ensure it is secure before operating the press.

Disposal Instructions

- Dispose of the ACCURING in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding the ACCURING DIE LOCK RING, please refer to the manufacturer's contact information provided with the product packaging or visit the official Forster Products, Inc. website.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the ACCURING DIE LOCK RING. Thank you for your attention to safety and for choosing Forster Products, Inc.
