

# SELF-LEVELING BIPODS 6-9" - HARRIS ROTATING SELF LEVELING BIPOD 6-9" BLACK

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

## A Quick-Adjust Bipod for Uneven Surfaces

Expanding its line of BR Model Bipods, Harris offers a new option that allows shooters to quickly set their rifle into place on uneven terrain, thanks to a self-leveling mechanism built into the unit. This system also allows shooters to quickly adjust leg height from their shooting position, and a twist of the locking mechanism keeps the bipod locked into place. Despite these changes, the Harris BR Bipod features the same classic S-Series base, allowing the gun to rock from side to side, as well as a 1A2 stationary base. The feet are capped with rubber, and the height is adjustable from 6 to 9 inches.

## Attributes

- Name: [HARRIS ROTATING SELF LEVELING BIPOD 6-9" BLACK](#)
- Manufacturer: [HARRIS](#)
- Product no.: 416000004
- Mfr. No.: S-BR2

# Safety Instruction Guide for Harris Rotating SelfLeveling Bipod 69" Black

## Introduction

Thank you for choosing the Harris Rotating SelfLeveling Bipod 69" Black. This bipod is designed to provide stability and ease of use for shooters in various terrains. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure the bipod is used only for its intended purpose, which is to stabilize firearms.
- Always check the bipod for damage or wear before each use.
- Do not exceed the maximum height adjustment of 9 inches.
- Keep the bipod away from children and unauthorized users.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always ensure the bipod is securely locked in place before using it to stabilize a firearm.
- Avoid using the bipod on unstable or uneven surfaces that may compromise stability.
- Do not attempt to adjust the leg height while aiming or firing.
- Use caution when handling firearms; always follow the basic rules of firearm safety.
- Ensure that the rubber feet are intact and free from debris before use to maintain grip and stability.

## Instructions for Installation and Usage

### 1. Unpacking the Bipod

- Carefully remove the bipod from its packaging.
- Inspect all components for any signs of damage or defects.

### 2. Attaching the Bipod to the Firearm

- Locate the attachment point on your firearm.
- Ensure the bipod is compatible with your firearm's attachment system.
- Securely attach the bipod to the firearm according to the manufacturer's instructions.

### 3. Adjusting the Leg Height

- Position the bipod on a stable surface.
- To adjust the leg height, twist the locking mechanism to unlock.
- Extend or retract the legs to the desired height (6 to 9 inches).
- Twist the locking mechanism to secure the legs in place.

### 4. Using the Bipod

- Once the bipod is securely attached and adjusted, position the firearm as needed.
- Ensure the bipod remains stable during use.
- Avoid making sudden movements that may destabilize the bipod.

### 5. Folding the Bipod for Storage

- To fold the bipod, twist the locking mechanism to unlock the legs.
- Collapse the legs and store the bipod in a safe, dry place.

## **Disposal Instructions**

- Dispose of the bipod in accordance with local regulations.
- Do not dispose of the bipod in regular household waste if it contains any electronic components.
- Check with local waste management facilities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product issues, please contact the manufacturer directly through their official website or customer service line.

Thank you for your attention to these safety guidelines. Proper use and care will ensure a safe and enjoyable experience with your Harris Rotating SelfLeveling Bipod.
