

# ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1), MULTICAM

[Home](#)

Assault Panel Core The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with non-standard or oddly shaped items. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. SIZING The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories,

sold separately.

## Attributes

- Name: [ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 1\), MULTICAM](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430100556
- Mfr. No.: PC-EV-MC-S1
- Color: Multi-Cam
- Delivery weight: 0.272kg
- Shipping height: 38mm
- Shipping width: 165mm
- Shipping length: 229mm

# Safety Instruction Guide for ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1), MULTICAM

## Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1), MULTICAM. This product is designed to provide a versatile and effective solution for carrying essential equipment during various operational tasks. To ensure your safety and the effective use of this cummerbund, please read this safety instruction guide carefully.

## General Safety Guidelines

- **Product Safety:** Ensure the cummerbund is used as intended. Follow all instructions for safe handling and usage.
- **Enhanced Recalls:** Stay informed about any recall notices related to this product. Should any safety issues arise, remedies will be provided.
- **Online Shopping:** When purchasing online, ensure that the vendor complies with safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Ensure it is kept out of reach of minors.
- **EU Contact Point:** For any inquiries regarding safety, please refer to the manufacturer's contact information provided on the packaging or website.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on product safety and recalls.

## Specific Safety Precautions for Use

- **Sizing:** Ensure you select the correct size for a proper fit. Size 1 fits waist measurements from 28" to 42". If your waist measures 42", consider upgrading to Size 2, which accommodates waist sizes from 40" to 54".
- **Proper Fitment:** Measure your waist at the belly button while wearing clothing similar to what you would wear during operation.
- **Avoid Overloading:** Do not exceed the recommended capacity of the cummerbund to prevent damage or personal injury.
- **Wear Properly:** Adjust the cummerbund securely before use. Ensure that it is not too tight or too loose.
- **Inspect Before Use:** Check for any signs of wear or damage before each use. If any issues are found, discontinue use immediately.
- **Avoid Sharp Objects:** Be cautious of sharp objects that may snag or damage the cummerbund.
- **Use in Appropriate Conditions:** The cummerbund is designed for specific operational environments; avoid using it in conditions that may compromise its integrity.

## Instructions for Installation and Usage

### 1. Attaching the Cummerbund:

- Open the rear plate bag and locate the attachment area inside.
- Align the cummerbund with the attachment points and secure it using the proprietary system.
- Ensure that the cummerbund is positioned correctly for optimal comfort and performance.

### 2. Adjusting the Fit:

- Adjust the cummerbund to fit snugly around your waist.
- Utilize the adjustment mechanism to achieve a secure fit without restricting movement.

### 3. Using the Elastic Cells:

- Load magazines or equipment into the elastic cells as needed.
- Ensure that items are securely held and do not exceed the elastic cell capacity.

#### **4. Removing the Cummerbund:**

- To remove, simply detach the cummerbund from the plate bag by reversing the attachment process.
- Store the cummerbund in a safe place when not in use.

## **Disposal Instructions**

- **End of Life Disposal:** When the cummerbund is no longer usable, dispose of it in accordance with local regulations.
- **Recycling:** If possible, recycle materials according to your local recycling guidelines. Check with local authorities for specifics on textile recycling.

## **Contact Information for Further Support**

For additional support or inquiries about the ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1), MULTICAM, please refer to the manufacturer's contact information available on the product packaging or their official website.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your ELASTIC HOOK & LOOP CUMMERBUND. Thank you for your attention to safety!
