

# **ELASTIC HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS**

## **ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2), BLACK**

[Home](#)

**Assault Panel Core** The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with-non standard or oddly shaped items. **Cummerbund Attachment** The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. **SIZING** The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" **SOLD AS A SET.** If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag,

Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 2\), BLACK](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430100558
- Mfr. No.: PC-EV-BK-S2
- Colour: Black
- Delivery weight: 0.357kg
- Shipping height: 44mm
- Shipping width: 159mm
- Shipping length: 216mm

# Safety Instruction Guide for ELASTIC HOOK & LOOP CUMMERBUND

## Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND by Spiritus Systems. This product is designed to enhance your operational efficiency while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the cummerbund safely and effectively.

## General Safety Guidelines

- Product Safety:** This cummerbund is designed to be safe for use in various operational environments. Ensure that you adhere to all safety guidelines to minimize risks.
- Enhanced Recalls:** In the event of a safety issue, Spiritus Systems will provide standardized recall notices and remedies. Stay informed about any recalls related to this product.
- Online Shopping Safety:** If you purchased this cummerbund online, know that you have the same safety protections as if you bought it from a physical store.
- Special Consumer Focus:** This product is not intended for children. Ensure that it is used only by trained professionals.
- EU Contact Point:** For any safety inquiries, please reach out to the designated EU contact point for this product.
- Rapid Alerts:** Stay updated on safety information through the EU's Safety Gate platform. Check for alerts on unsafe products regularly.

## Specific Safety Precautions for Use

- Proper Fit:** Before use, ensure that the cummerbund fits correctly. Measure your waist at the belly button and select the appropriate size (Size 1: 28" to 42", Size 2: 40" to 54").
- Weight Capacity:** Be mindful of the weight you attach to the cummerbund. It is designed to handle standard 5.56 magazines and similar items. Avoid overloading it with nonstandard or excessively heavy items.
- Avoid Snags:** When exiting vehicles or engaging in activities that may cause the cummerbund to snag, ensure that no external components are at risk of being caught.
- Environmental Considerations:** If operating in extreme environments (e.g., arctic conditions), dress appropriately while using the cummerbund to ensure accurate fitment.
- Regular Inspections:** Periodically inspect the cummerbund for wear and tear, especially the elastic cells and attachment points. Replace it if any damage is observed.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have the cummerbund and any necessary accessories (e.g., flaps) ready for installation.
- Familiarize yourself with the attachment points on your LV119 Rear Plate Bag.

### 2. Attaching the Cummerbund:

- Locate the internal attachment points inside the plate bag.
- Insert the cummerbund into the designated slots, ensuring it is securely fastened.
- Adjust the cummerbund to fit your waist size, utilizing the adjustment range of up to 14 inches.

### 3. Using the Cummerbund:

- Once attached, load the elastic cells with the necessary equipment, ensuring that items are securely held.
- Use the sewn-on pull tabs for easy access to equipment and to facilitate loading and extraction.
- Ensure that the cummerbund is worn under clothing for a smooth profile.

#### 4. **Removing the Cummerbund:**

- To remove, carefully detach the cummerbund from the internal attachment points.
- Store the cummerbund in a clean, dry place when not in use.

## **Disposal Instructions**

- **Environmental Responsibility:** Dispose of the cummerbund according to local regulations regarding textile and plastic waste.
- **Recycling:** If possible, recycle the materials. Check with local recycling centers for guidance on how to properly dispose of or recycle the cummerbund.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the ELASTIC HOOK & LOOP CUMMERBUND, please refer to the designated support channels provided by Spiritus Systems. Always ensure that you are using the most current information available.

Thank you for your attention to these safety guidelines. Your safety and effective use of the ELASTIC HOOK & LOOP CUMMERBUND are our top priorities.
