

# MOLLE HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND (SIZE 1), RANGER GREEN

[Home](#)

NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The Hook & Loop MOLLE Cummerbund was designed to be a lightweight and simple load carriage solution for the LV/119 series of vests. Using the widely adopted MOLLE system, the cummerbund offers almost infinite configurations for mission needs by utilizing any MOLLE accessory that can be found on the market. The cummerbund is designed to allow simultaneous use of the same MOLLE cell for products mounted on the inside and outside of the cummerbund. The Hook & Loop MOLLE Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles' manufacturing. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. Sizing The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND \(SIZE 1\), RANGER GREEN](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430100597

# MOLLE Hook & Loop Cumberbund Safety Instructions

## Introduction

Thank you for choosing the MOLLE Hook & Loop Cumberbund from Spiritus Systems. This product is designed to enhance your load carriage capabilities while ensuring comfort and security. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the cumberbund is compatible with your LV/119 plate bag before use.
- Regularly inspect the cumberbund for wear and tear. Replace it if you notice any damage.
- Avoid using the cumberbund with heavy loads that exceed its specified weight capacity.
- Keep the cumberbund away from sharp objects that may cause damage.
- Store the cumberbund in a cool, dry place when not in use to maintain material integrity.
- If you experience any discomfort while wearing the cumberbund, remove it immediately and consult a professional.

## Specific Safety Precautions for Use

- **Proper Fit:** Measure your waist at the belly button to ensure the correct size. Size 1 fits waists from 28" to 42", and Size 2 fits waists from 40" to 54".
- **Clothing Considerations:** Dress as you would while wearing the cumberbund during measurement and use. For cold environments, wear appropriate coldweather gear.
- **Avoid Hook & Loop Overuse:** Hook & Loop is not utilized as an attachment method on the rear plate bag. Ensure that the cumberbund is securely attached to prevent it from coming loose during use.
- **Weight Handling:** Be mindful that Hook & Loop does not handle weight well. Avoid attaching heavy items directly to the Hook & Loop sections.
- **Avoid Snagging:** When exiting vehicles or engaging in activities, be cautious of snagging the cumberbund on external objects.

## Instructions for Installation and Usage

### 1. Attachment:

- Insert the cumberbund inside the plate bag for a secure fit.
- Adjust the cumberbund to your desired tightness using the proprietary adjustment system.

### 2. Wearing:

- Ensure that the cumberbund is positioned comfortably around your waist.
- Adjust the cumberbund for a smooth profile under clothing to avoid discomfort or visibility.

### 3. Adjustment:

- The cumberbund allows for up to 14 inches of total adjustment. Make sure it is snug but not overly tight to allow for movement.

### 4. Inspection:

- Before each use, inspect the cummerbund for any signs of damage, wear, or malfunction. If any issues are detected, discontinue use immediately.

## **Disposal Instructions**

- Dispose of the cummerbund in accordance with local regulations for textile waste.
- If the cummerbund is damaged beyond repair, consider recycling options for the materials if available.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the MOLLE Hook & Loop Cummerbund, please refer to the manufacturer's contact details provided on the product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective experience with your MOLLE Hook & Loop Cummerbund. Thank you for your attention to safety and for choosing Spiritus Systems.
