

MEDIUM GP POUCH MK3 - SPIRITUS SYSTEMS MEDIUM GP POUCH MK 3, RANGER GREEN

[Shooting Accessories](#) > [Duty Gear](#) > [Pouches](#)

There are plenty of GP pouches out there on the market, but this one is more than your average General Purpose pouch. Using feedback from service members of multiple organizations, Spiritus Systems expanded what a GP pouch can be. The Medium GP Pouch features a front pocket for storing items like VS-17 panels or SSE bags. The Mk3 model of the GP did away with the stretch material on the front pocket, instead featuring color-matched 500D Cordura Nylon. They improved their attachment system based on user feedback. Tighter weaving to keep the pouch secure to your vest and a belt pass through have been added without additional weight to the pouch. It merges the best of both worlds by utilizing webbing and low-profile, high-strength Tegriss. The Tegriss provides an ultralight and thin mounting solution, which pairs perfectly with the webbing attachment straps, providing extreme strength and ease of weaving. The inside of the pouch is lined with Velcro and accepts our Pouch Insert Suite. Together, this pouch can change the way you store your body-worn equipment.
