

JSTA POUCH - SPIRITUS SYSTEMS JSTA POUCH, MULTICAM

[Shooting Accessories](#) > [Duty Gear](#) > [Pouches](#)

The JSTA Pouch was designed as a space saving solution for battle belts and other platforms with MOLLE mounting points. The pouch features two inline stacked compartments that allow the end user to combine their magazine holders with a GP pouch in a small form factor. The inner sleeve is lined with Velcro loop fields that will accept the following Spiritus Systems magazine inserts: 1x 5.56 Single Rifle Insert 1x 7.62 Single Rifle Insert 1x Single Pistol Insert 1x Double Pistol Insert 1x 5.56 Single Rifle Insert + 1x Single Pistol Insert The outer pouch is built with a quick-open Velcro flap, and has two compartments. The primary compartment features a Velcro loop field that will accommodate the following Spiritus Systems Utility Inserts Shotgun/CR123 Battery Insert Chemlight / AA Battery Insert 3 Loop Pouch Insert The secondary compartment can function as either as admin storage for smaller items or additional spill over from the main compartment. If the outer GP pouch is empty, the pouch is designed to lay extremely flat against the body. This reduces the pouch's snag hazard when not in use. The JSTA can either be mounted to a belt through the integrated belt loops, or with MOLLE webbing. The pouch requires 3 rows & 3 columns of MOLLE to be properly mounted and has a footprint similar to the Spiritus Systems Small GP Pouch. Outside of belt mounted configurations, the JSTA is a great alternative to a small GP for flanking a Micro Fight on the Thing 2 Chassis. It can also be mounted to an LV/119 MOLLE Cummerbund. NOTE: The JSTA pouch does not include any accessories. All Velcro inserts are sold separately.
