

SCS (SOLAR CHARGING SIGHT) FOR GLOCK® MOS® SYSTEM - HOLOSUN SCS-MOS REFLEX SIGHT 2 MOA & 32 MOA CIRCLE BLACK

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

The Holosun Solar Charging Sight (SCS-MOS) is a direct attachment optic for the Glock® MOS® systems offering Holosun's lowest profile pistol optic for use with standard-height iron sights. This unit fits on the pistol with no adapter plate needed. The SCS reimagines Holosun's Solar Failsafe™ system as a primary power source. The internal, rechargeable battery utilizes integrated solar cells and automatic brightness adjustment to make sure your battery will last as long as its shelf life. Given occasional bright light, the SCS will recharge itself. Additionally, our Multi-Reticle System™ (MRS) displays a 32MOA Circle or a 2MOA dot or both.

Attributes

- Name: [HOLOSUN SCS-MOS REFLEX SIGHT 2 MOA & 32 MOA CIRCLE BLACK](#)
- Manufacturer: [HOLOSUN](#)
- Product no.: 430100842
- Mfr. No.: SCS-M-GR

Safety Instruction Guide for Holosun Solar Charging Sight (SCSMOS)

Introduction

Thank you for choosing the Holosun Solar Charging Sight (SCSMOS) for your Glock® MOS® system. This guide provides essential safety instructions to ensure the safe use and installation of your product. Please read this guide carefully to maximize your experience and ensure your safety.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this guide.
- Always handle the product with care to avoid damage or injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage before use.
- If the product appears damaged or malfunctions, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Battery Safety:**
 - Do not attempt to open or disassemble the battery compartment.
 - Use only the specified ML1220 battery for replacement.
 - Avoid exposing the battery to extreme temperatures or moisture.
- **Optic Safety:**
 - Do not look directly at the sun through the optic as it may cause permanent eye damage.
 - Ensure the optic is securely attached to the pistol to prevent it from falling off during use.
- **Environmental Considerations:**
 - Do not use the product in conditions that exceed the manufacturer's temperature and humidity recommendations.
 - Avoid using the product in environments with excessive dust or moisture.

Instructions for Installation and Usage

1. Installation:

- Ensure the Glock® MOS® system is clean and free of debris before installation.
- Align the SCSMOS with the mounting plate on the Glock® MOS® system.
- Secure the optic using the provided screws, ensuring it is tightly fastened but not overtightened to avoid damage.
- Check the alignment and adjust as necessary.

2. Usage:

- Activate the optic by pressing the power button.
- Adjust the brightness settings according to the ambient light using the automatic brightness adjustment feature.
- Select your preferred reticle (32MOA Circle, 2MOA dot, or both) using the reticle selection feature.
- Regularly check the battery status and recharge as necessary using the solar charging feature.

Disposal Instructions

- Dispose of the product and its components in accordance with local regulations regarding electronic waste.
- Do not dispose of the battery in household waste. Follow local guidelines for battery disposal.
- If unsure about disposal methods, contact local waste management authorities for guidance.

Contact Information for Further Support

For any further inquiries regarding safety or product issues, please refer to the manufacturer's official website or customer service channels. It is important to have access to support for any questions or concerns you may have.

By following these safety instructions, you can ensure a safe and effective experience with your Holosun Solar Charging Sight (SCSMOS). Thank you for your attention to safety, and enjoy your new optic!
